

You are invited to attend the Sound Transit W200 Duwamish River Crossing & Aerial Guideway Small Business Outreach Event hosted by Duwamish Guideway Partners (FlatironDragados and Aecon Joint Venture). As our team pursues this landmark Heavy Civil GC/CM opportunity, we are seeking to establish relationships with qualified subcontractors, suppliers, consultants, and certified small businesses interested in supporting the project.

Event Details Date: Thursday, **July 9, 2026** Time: 10:00 a.m. – 12:00 p.m.

Location: Tukwila Community Center – Banquet Hall 12424 42nd Ave. South Tukwila, WA 98168

About the Project

The Sound Transit W200 contract is a key component of the West Seattle Link Extension and includes construction of more than 1.5 miles of guideway and a signature 2,400-foot cable-stayed bridge crossing the Duwamish Waterway.

This event is an opportunity to engage with our pursuit team before procurement advances and learn how your firm may be positioned for upcoming subcontracting opportunities.

During the Event You Will Have the Opportunity To: Learn about the W200 project and procurement approach. Meet members of the Duwamish Guideway Partners team. Discuss anticipated subcontracting and supplier opportunities. Introduce your firm's capabilities and experience. Network with industry partners and certified small businesses.

We encourage firms with experience in civil construction, utilities, trucking, electrical, traffic control, erosion control, flatwork, landscaping, saw cutting, retaining walls, metal fabrication, and other related disciplines to attend.

If you have any questions, please contact: Gin Hooks Outreach

Coordinatorgin@zanninc.com We look forward to meeting you and exploring opportunities to work together on this transformative Sound Transit pursuit.
