International Risk Management Services

Serving Public & Private Entities

Global Risk Managers, Inc. (Global), is a minority owned and managed company incorporated and domiciled in the State of Georgia. Based out of Atlanta, GA, we have affiliate relationships across the country and have provided risk management services to clients around the globe. Our firm's risk management services are provided through an experienced staff and the resources of international brokerage partners and insurance market relationships.

Our Founding Mission

Global's president, Brad Anderson, has been in the insurance industry as a consultant and underwriter for over 30 years. We were founded in 1991 to provide risk management services to public and private entities. Specifically, we are focused on developing and implementing risk management programs to assist clients in effectively managing the risk exposure associated with their operations.

Our Work with AASHTO

Global was the Owner Controlled Insurance Programs (OCIP) consultant to the American Association of State Highway and Transportation Officials (AASHTO). In that capacity, Global markets its OCIP development and administration expertise to AASHTO members across the nation. AASHTO is a non-profit, non-partisan association representing highway and transportation departments in the 50 states, the District of Columbia and Puerto Rico. It represents all five transportation modes: air, highways, public transportation, rail and water. Its primary goal is to foster the development, operation and maintenance of an integrated national transportation system. Global's role was to develop systems and procedures to implement several services to the states through AASHTO including the consulting and implementation of OCIP and Environmental Justice programs for the states.

Our Specialization in OCIPs

Global administered the Statewide Owner Controlled Insurance Program (OCIP) or "wrap-up" study for Colorado and provided OCIP services for the Georgia State Financing and Investment Commission (GSFIC), created and administered the Fulton County OCIP and the Georgia World Congress Center OCIP. Global specializes in OCIPs that provide a more even playing field for small businesses by providing a single insurance program for all contractors and subcontractors.
