7100 Fort Dent Way
Tukwila, WA 98188

Some of Washington's most successful contractors have come together to create a job and career fair that provides opportunities on local government and private sector capital improvement projects for members of communities of color to pursue. We encourage MBEs to attend this event to learn about contract opportunities over 2022.

Positions range from trade work to project management, some starting positions do **NOT** require prior construction experience.
