AFFIDAVIT

STATE OF: Colorado

I, Amber Green, after being duly sworn do hereby state the following:

Q: What is your full name?

A: Amber Lynn Green

Q: Are you currently employed? Please explain.

A: No. I am waiting on the state of Colorado Mental Health Board to either approve, or deny, my petition to extend my license as a Licensed Professional Counseling Candidate and COVID-19 has made sourcing other employment not feasible. Once my license extension is approved I will open a private counseling practice.

Q: Do you know Homeland Security Investigations (HSI) Criminal Analyst (CA) Matthew Green? Please explain.

A: I know Homeland Security Investigations Criminal Analyst Matthew Green from our marriage, and at the time of writing this interview, we have a five year old son named Colton Alexander Green.

Q: How long were you married to CA Green? When was your divorce finalized?

A: I married Matthew Ernest Green on December 28th 2012, and our divorce was finalized on February 23rd, 2020.

Q: Did you submit an email alleging you suspected CA Green was selling privileged or classified information for personal financial gain? If so, who or what prompted you to do so?

A: I wrote an email notifying authorities of the possibility that CA Green was selling privileged or classified information for personal gain. After a phone conversation that I

Affiant's Initials

have recorded on November 15th 2019 when Matt states he has only \$300 to last him for the next two weeks and he can't fix his truck's A/C and heater, and then another incident on April 14th 2020 when Matt took over half of "our family" COVID-19 stimulus check stating that he needed it because he was broke, there was then a sudden noticeable and unexplainable improvement in Matt's financial situation. Matt and I were divorced on February 23rd, 2020 so I know that he does not have cash from our marriage. I asked Matt directly, how during a pandemic he was able to buy a brand new Toyota Tacoma, build a custom home, purchase an Irish Terrier which is an expensive designer dog, and Matt would not comment. During our marriage Matt had made, what I had considered at the time to be joking comments, about how much money he could get if people knew about certain classified events. After expressing my concerns to friends, it was pointed out to me that I was the only one who knew Matt's financial situation, and if I thought it even possible for a second that Matt would have acted on selling classified information, then I needed to report it to protect myself from misprision of a felony. I even asked Matt's family where the money came from, because at one point I had assumed it might have been from them, but I got no response. After I asked Matt a second time, if he got the money for the 20% downpayment most custom homes require from his parents, and he avoided directly answering I then decided to send the email because some of the information Matt "joked" about selling involves agents in foreign countries whose lives and identities could have been jeopardized.

Q: In your email you describe CA Green as having an elaborate lifestyle. Can you please explain what you meant by that? Are you aware of any dollar amounts he spent or any specifics on the purchases you referenced? Do you know if he paid for his newly acquired possessions in full or obtained loans for them?

A: On April 22nd 2020 Matt showed up with a brand new grey Toyota Tacoma which MSRP starts around \$25,000. Matt is also building a custom home in Monument Colorado and most construction loans require 20% cash down payment. Matt bought a new iPad and gifted his old iPad to our son. Matt recently purchased a designer puppy, an Irish Terrier which cost around \$1,000. As stated above, I asked Matt and his family where the money was coming from and they did not respond. I thus do not know how Matt acquired and paid for these items.

Q: You said in the past that CA Green stated to you he could make money if he sold classified secrets or privileged information. Do you remember how long ago he stated this? How many times?

Affiant's Initials

A: I do not remember exactly how long ago, nor the exact number of times during our marriage that Matt made comments about selling classified secrets and privileged information. I do however know the last time Matt used privileged information for his benefit. This would have been last fall when Matt stated to me that I better do what he wanted during our divorce because he is such a powerful federal employee that he was going to go watch the United States Government give laundered money to El Chapo Guzman's son and it was taking place in Chicago. I remember Matt saying the amount to be fifty million, but I am not hundred percent sure that I remember the exact dollar amount correctly because I was terrified.

Q: Did CA Green ever state to you a dollar amount he thought he could receive for selling classified or privileged information?

A: Matt never mentioned an exact dollar amount.

Q: In your email you mentioned CA Green had specifically informed you about the United States Central Intelligence Agency (CIA) and their presence in Utah. Can you elaborate? When did CA Green mention this to you? Did he ever say why this information is valuable? Did you do any Internet searches regarding this information? If so, what did you learn?

A: It was several years ago that Matt made a comment regarding what he could get if people knew that the United States Central Intelligence Agency (CIA) had a large presence in Utah because the CIA is converting Mormons into Agents once they return from their proselytizing missions. Matt stated that Mormons are the perfect cover as Agents overseas because they know the language, have established contacts, and their presence wouldn't be viewed as suspicious by foreign officials. While married to Matt I did not search the internet for this information because I don't believe that you can find classified information on the internet.

Q: In your email you made reference to John Macintosh and his activities in Belize? Can you elaborate on this? When did CA Green mention this to you? Is it possible you meant John MacAfee? Did CA Green mention why this information is valuable? Did you ever do any Internet searches on this? If so, did you find out any details?

A: Matt made this comment when he was doing Counter Threat Finance at NORTHCOM at the beginning of our marriage, and it was the first time I remember Matt making a comment about selling information. I don't remember the exact words Matt used but the context was that he wondered what John Macintosh would pay to keep something quiet. It is possible that it was John MacAfee, and I got the name wrong, because I do remember asking Matt who John was and he said he was a

Affiant's Initials

billionaire tech guy. I searched the internet today and found that there is a story about a John MacAfee who fled Belize before murder charges.

Q: You mentioned that CA Green had information about the Russians using DNA warfare to execute Sergei and Yulia Skripal. When did CA Green mention this to you? Did he mention who would be interested in this information or how much it would be worth? Have you done any Internet searches on this information?

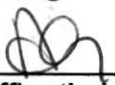

A: Matt made a comment that America was dumbfounded, and had new respect for the Russian government, because the Russians developed a chemical warfare used to assassinate people that is DNA specific and makes targeting and murdering people almost undetectable. Matt told me that a chemical agent was placed on the door handle of Sergei and Yulia Skripal that specifically targeted them and was only activated by their DNA. Matt stated that other people could enter and exit the house touching the door handle with the chemical agent in place, without being harmed, because they did not have the same DNA specifics as Sergei and Yulia. Matt stated that there were probably a lot of evil people who would pay big money for that kind of warfare. I searched the internet today and found that Sergei and Yulia Skripal did not die from the attempted assassination.

Q: You stated CA Green told you that you "better do what he wanted during your divorce" from him because he was going to watch United States Officials give \$50 million to El Chapo Guzman's son. When during your divorce did he tell you this and in your opinion why did he state this to you?

A: Matt made the comment that I better do what he wanted during our divorce because he was a powerful federal employee and he was going to go watch the United States government launder, somewhere in the amount of fifty million dollars, and give it to El Chapo Guzman's son in Chicago Illinois. Matt did this to intimidate me in the fall of 2019 while we were negotiating the terms of our divorce. Matt has used threats of blackmail and his power as a government employee in the past to control me during our marriage.

Q: You mentioned you are in fear that people who protect this country are in jeopardy based on CA Green's lifestyle. Can you elaborate on this?

A: Not understanding how being broke after our divorce, and during a pandemic, Matt has made two major purchases(car and house) that most Americans can not afford in the same decade, made me evaluate where Matt was getting money. Upon remembering Matt's comments about the Mormons in Utah I realized that if Matt had been serious about selling classified information there could be unsuspecting

Affiant's Initials

Mormons/Agents in foreign countries whose identities could have been sold to support Matt's new lifestyle.

Q: Do you have any direct evidence or personal knowledge that CA Green has sold any classified or privileged information for personal gain?

A: I have concerns, but I do not have any direct evidence that Matt Green has sold any classified or privileged information for personal gain.

Q: Is there anything further that you would like to add regarding this matter?

A: I'm currently completely financially dependent on Matt's spousal maintenance and child support payments, and realizing that if any of this is true that my son and I could be homeless, I still chose to do the right thing and notify authorities. I hope however to be proven wrong and that there is a logical explanation regarding how Matt has achieved a great lifestyle during COVID-19 and right after becoming financially broke from our divorce.

The contents of this statement are true and correct to the best of my knowledge and belief.
