Jamie and Bob,

I recently found this text message exchange from my ex husband threatening to have me arrested for kidnapping if I didn't help him move a dresser on January 19th, 2020. I was set up by my ex husband and other entities and I am innocent of all charges. Can the three of us please sit down and figure out how to proceed because this case is clearly unprecedented and operating outside of federal criminal procedures? I also want to understand why my ex husband was in the courtroom on August 1st, 2024 when he is not a victim or a witness in this case and it appeared to be intimidation.

Sincerely,

Amber Green
