Impression

IMPRESSION: Fracture of L1 without subluxation or significant height loss.

WSN:HMINWKS120

Narrative

PROCEDURE: XR LSPINE 2 VIEWS (AP,LAT)

CLINICAL INFORMATION: l spine fx

REASON FOR STUDY: eval for change when upright

COMPARISON: CT from 11/2/14

FINDINGS: There is a fracture of the L1 vertebral body without significant height loss or kyphotic angulation. There is no subluxation or disc space narrowing. The remainder of the vertebral bodies are preserved.

A portion of a fetal skeleton is visualized projecting over the sacrum on the left.
