

The Lyrics

Cool Winds

Words and Music by Avery Stafford

Verse 1

I turned on the news and saw that all the world had been confused
It was like a generation lost their muse
Now what do we do?
The silent moment comes for Gary, Indiana's favorite son
And even though the day is still brand new ...
What do we do? (chorus)

Chorus

There seems to be no end
To all that's going wrong in this ole world
I'm captured by invisible cool winds
That rush me to the highest point within
I've gotta find a reason for my life – the one that got away
A song of endless love; dare I pray?

Verse 2

An angel passing on – I guess the time was right to go back home
But the pain of losing all that I have known ...
I'm not the only one
If peace is never done, and we remember why the songs were sung
The people of the earth will dance as one
It's now begun! (chorus)
