I. Don't Drink Alone of the Living water

Q1: What were your main takeaways from the sermon/text that was preached?

Q2: In what ways does Jesus eternally satisfy us?

Q3: In the sermon, sexual gratification and human approval were mentioned as substitutes that we look to in order to satisfy us. What are other examples of what we look to in order to be content?

Q4: How does humanities pursuit of a substitute for God change how we understand ourselves and relate to others?

Q5: The point of the passage was not just what Jesus did in the woman, but what it made her want to for others. What are our obstacles to drinking living water by ourselves? (I.e. becoming a Christian without evangelizing others) How does the story of this woman help you?
