

THE METALLIANCE

Between all of the members of The METAlliance, thousands and thousands of hits records have been recorded, mixed, and produced! All of the members of the METAlliance have been highly lauded by artists, those in the recording industry, and their peers. Thankfully, these incredibly talented, iconic professionals are ready to share their insight into the best ways to record great music!

Who Are the METAlliance?

METAlliance: Strategic union of music producers and engineers dedicated to the highest standards of audio quality and music delivery, securing the art through recording technology in all its evolving modern forms.

Established in 2005, the Music Engineering and Technology Alliance (METAlliance) is a collaborative community that promotes an environment where producers, engineers, and audio technology manufacturers work together to ensure the highest standards of audio production.

Alongside platforms for research and development, standardization and education, the METAlliance also works closely with manufacturers to evaluate and certify products that offer the highest levels of quality in the recording chain. To date, only a limited number of products have achieved this accolade. To learn more about METAlliance Certified products, [click here](#).
