➢ UL 291 Level 1 safe standard

➢ Opt: RF card reader, bar code scanner, biometrics, etc.

*Core Integration functionality

H34V and H48V ATM and Core Integration terminals

- Core i3 – i7, Win 10
- 19" Sunlight viewable color LCD
- Touch screen
- PCI metal EPP
- 3 module heater kit
- Intelligent Cash/Check Deposit Module
- EMV approved card reader
- 80 mm high graphics printer
- 2 to 4 cassette dispenser (3,500 per)
- YDC – EMV-XFS-3.2 software AA- NDC
- UL 291 Level 1 safe standard
- Opt; RF card reader, bar code scanner, biometrics, etc.

➢ The H34V/VL/VD and H48V are full-function ATMs and Core Integration terminals in: Island, TTW, and Lobby versions.

➢ The units offer cash withdrawal, bundle cash and check deposit, funds transfer, bill payment, statement printing, assisted self-service (video teller) and broad range of other services.

➢ With a compact transaction area, large screen, high capacity cash dispenser and intelligent depository, these are an ideal solution for high volume banking locations.

*Core Integration functionality

H68V Recycling Series

- 4 + 1 cassette – up to 8 denominations with dual recycle cassettes
- Core I3-i7, Win10
- 19" Touch Screen Display
- PCI metal EPP
- Electronic Lock
- Kaba Mas option
- EMV Dip Card Reader
- 80 mm thermal printer
- Acceptance cassette, retract and reject
- YDC – EMV-XFS software NDC
- UL 291 Level 1 Vault
- Optional check scanner acceptor, biometrics, id scanner, NFC, coin processing, etc.

➢ The H68V series is a new generation of multi-functional recycler ATMs / Core Integration kiosks

➢ Available in lobby, TTW Walk Up, TTW Drive Up, and Island/Bunker configurations.

➢ The H68V comes with the legendary GRG CRM9250N cash recycler engine, which can be configured as a full-function recycler, **OR** an upgradable recycling-ready cash dispenser/acceptor.

➢ The expanded cabinet design can accommodate multiple options, such as automated check acceptance, coin dispensing, and expanded card issuance.

*Core Integration Functionality

Recycling Ready Option

- **All** H68V series cash recyclers can be ordered in a **Recycling-Ready configuration**.
  - Unit is shipped complete with the CRM9250N recycling module.
  - Firmware and software are limited to cash dispensing and cash deposit with dedicated cassettes for each function.
- Initial unit cost is ~ 10% greater than a cash dispense ATM with an intelligent deposit module.
- Field upgrade to full recycling functionality involves only firmware and software updates; no mechanical changes are needed.
- **More choices, protected investment, and easier field upgrade.**

*Core Integration Functionality

H68V vs. H34V

TTW or Lobby
Walk Up Models

H68VI vs. H48VD

Island Model

H68VD vs. H34VD

Drive Up
TTW Model
