G-Locks

Smart Safe Solution

Get rid of the need for keys with our smart safe solution. No longer worry about sharing passwords or security breaches that can drastically affect your business operations. Instead, use our smart safe solution that ensures any cash safe is only opened by the right person, at the right time, at the right place. With our centralized platform, control all lock operations remotely with little to no human intervention needed!

Intelligent G-Lock Management System

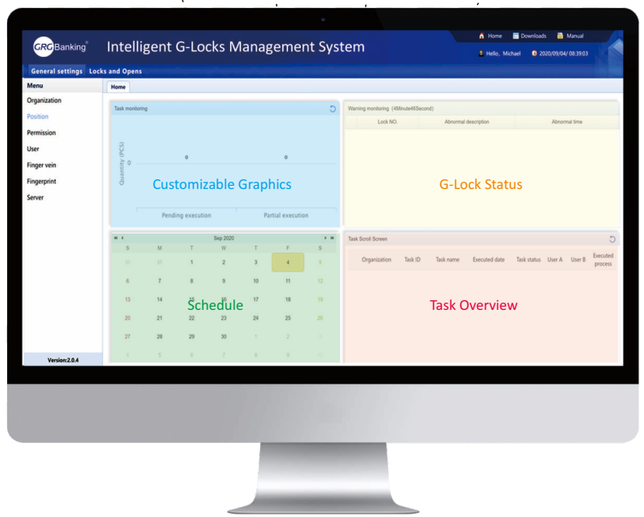

Our management system can run with locks on online or offline mode. With this centralized platform you can control authorized users, log in information, lock authorization, lock tasks, and much more all from a remote location.

Dashboard
Organize and query reports for management

Device Management
Monitor devices and modes of opening

Staff Management
Manage users, permissions, and registration

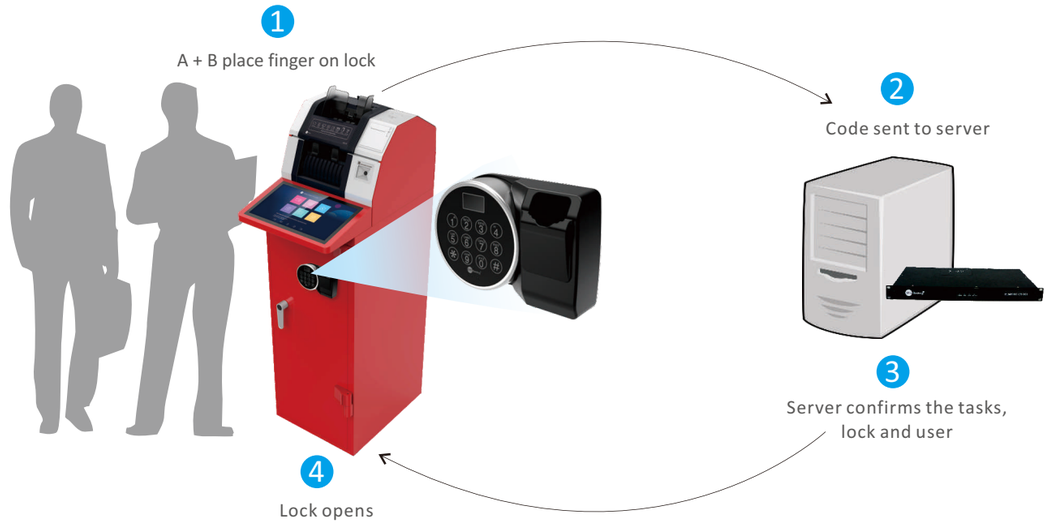

Task Management
Create tasks schedules and permissions
