## Welcome to the new Eastern Brahman Breeders Association

We're just getting STARTED! The EBBA launched on January 1, 2019 with a mission to promote and market Brahman and Brahman Influenced cattle in the Eastern part of the United States, our territory is huge, all of ABBA area #12, which includes 25 states and DC. Most of the Brahman and Brahman Influenced cattle in our Eastern Territory are located in four states; Georgia, South Carolina, North Carolina and Tennessee. We want to continue to serve these states but also see a huge untapped area North of the North Carolina - Tennessee line.

We launched our new association with the blessing of the American Brahman Breeders Association (ABBA) our parent organization that we owe so much gratitude to. For if it was not for the founding of the ABBA and all they have done through the years to promote and market the American Brahman and Brahman Influenced Cattle we would not have this amazing breed of cattle to call our own. We will continue to work closely with the ABBA to promote and market Brahman and Brahman Influenced cattle in our Eastern area. Our ABBA area #12 director is [Travis McCutchen](#) and his information can be found on our website on the

We would like to thank the Brahman Journal for helping us get the word out about our new association and giving us magazines to hand out at cattle trade shows. They are true champions of the Brahman Breeders in this country.

## Eastern Brahman Extravaganza

We will be hosting an open Brahman Show at the North Carolina Mountain State Fair in Fletcher, North Carolina at the WNC Agriculture Center on September 9, 2019. We are still in the planning stages working with the NC Department of Agriculture and the Mountain State Fair officials and the ABBA.

So far we have our location, our date and our judge! A good start, but there is still so much to do. To be a sanctioned ABBA points show we must first prove ourselves, which means that we need a minimum of 40 registered head of Brahman to show two years in a row. Our open show will feature both registered Brahmans and a commercial class for all Brahman Influenced cattle. Our goal for our show is that it be a friendly and fun show where everyone will feel welcomed no matter their level of experience or pedigree of their cattle. We want our Eastern Brahman Extravaganza to be a place where Brahman folks come to network with other Brahman folks and a place where the general public can come and learn more about our type of cattle. We have a page on our website [Extravaganza](#) that we will update as we get farther along in our planning stages. We will be featuring online entries and will post helpful information about our show. For now we just hope you will save the date, mark your calendar and start working with your prospective show cattle.
