Dear Brahman Enthusiasts:

I am extremely excited and honored to invite you to the First Annual Eastern Brahman Breeders Association Brahman Extravaganza. EBBA President Cyana Briles and her committee have done an outstanding job of planning this weekend of shows, sale, and Brahman camaraderie. We hope that you have made plans to be with us! This sale offers something for everyone and was assembled with a focus on quality and diversity. As you read through this catalog, you will quickly realize that the consignments represent elite genetics from some of the premier breeders in the U.S. Beef Industry.

The value in Brahman & F-1 cattle is being realized in expanded areas due to their efficiency and adaptability. Due to this it is expected that the breed will expand especially for superior seedstock. As you view this offering consider which animals might enhance your program. I am extremely proud of this offering, have handpicked many of the lots, and know that they will work!

If you are unable to attend the sale you can watch it online and bid through Cattle in Motion, www.cattleinmotion.com). If you have any questions, feel free to give myself or the sale day contacts a call.

Regards,

Chris Shivers

Buy with confidence from a proven cow family! In fact, HK Ms Polled Prelude is the #1 producing Cow of POLLED calves in the ABBA Registry! (tied with a LaMuneca cow). Ms. Prelude was hand-picked by HK's Dinah Weil for T. Clark Miller's "re-entry" into the Brahman world in 2015. This time the focus was on Red-pedigreed Polled genetics. Although Gray in color with red undercoat, Ms. Prelude produces Red with Red Bulls. She produces 70-100 oocytes each aspiration and comes from a fertile and famous cow family, as she is also half-sister to 3X-HK Architecto and 3X-HK 960, both Herd Bulls for HK Cattle. Ms. Prelude has "clicked" with everything she's been mated with. On the sire side of this mating is also proven showing genetics with +Winchester Magnum! Undoubtedly the most influential red Brahman bull of our current age. Imagine what a POLLED Winchester son or daughter would be worth--with polled cattle starting to take the forefront!
