

BCS[®] | QUARTZ

STRONG / VERSATILE / BEAUTIFUL

SUPERIOR QUALITY

HIGH PURITY

With a high purity of 90-93% natural quartz, our BCS Quartz products provide consistent hardness, durability, and extraordinary color. Our polishing process provides scratch resistance and prevents fading.

STATE-OF-THE-ART TECHNOLOGY

BCS Quartz products are manufactured with the latest advanced machinery. Our high performance compactor provides a density average of 2.45 ton/m³. This advanced process prevents air and contaminants from infiltrating the stone; resulting in a dense and durable product.

PRECISION

Best Cheer Stone maintains exceptional production standards calibrating our slabs within +/- 0.3mm thickness.

CONSISTENCY

Mass production enables consistency in color and pattern, making BCS Quartz an ideal choice for large-scale projects.

LOW MAINTENANCE & HIGH SAFETY STANDARD

BACTERIA RESISTANT:

Lower water absorption than Granite (0.03% vs. 1%). Less moisture allows for less bacteria to infiltrate the stone.

STAIN RESISTANT:

Low absorption rate resists staining from coffee, wine, fruits and other normal kitchen/household liquids.

FADING RESISTANT:

High quartz content (90%-93%). Does not react chemically with alkaline and acids (ex. juices, colas, vinegars) as marble and granites often do.

SCRATCH RESISTANT:

Hardness similar to most granites. Much stronger than marble and limestone (Mohs hardness 5-6). Resistant to scratches.

HIGH SAFETY STANDARDS:

Quality and safety are always our top priority. BCS Quartz is certified by GreenGuard and NSF; the highest quality certificates in the industry.

CREATE YOUR DREAM PROJECT WITH BCS[®] QUARTZ

IN STOCK

Currently BCS has more than 30 quartz products regularly stocked that can be tailored to fit all types of consumer needs and projects.

TOP RESEARCH & DEVELOPMENT

BCS operates a state-of-the-art quartz research and development lab devoted to delivering the finest quality, highest standards, and proven innovation to the company's wide-range of products.

INNOVATION

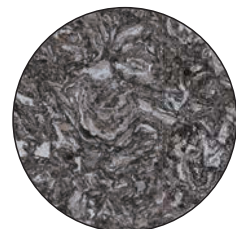

BCS is a leader in delivering innovative, premium quartz products to the market.

FACTORY DIRECT

Have a large project? BCS has factories producing a variety of stone products- granite, marble, and quartz. Combine your shipments direct from our factories to save time and money.
