

## POWERFUL SOLUTIONS FOR EVERY RESTAURANT CHALLENGE

Avero products empower hospitality operators with the answers they need to transform their businesses and their lives. From enhancing sales and customer service to controlling labor and food costs, and everything in between, you'll get the insights you need, when you need them.

### DRIVE SALES

#### SALES & PRODUCTIVITY

View, predict, and increase your sales with insights to help you optimize menus, run sales contests, prep accurately, and more.

#### SERVICE TEAM

Drive average check, track and improve server performance, train and schedule strategically, and curb employee theft.

#### REVENUE MANAGEMENT

Fine tune your open hours, manage to demand, and perfect your promotions to find untapped revenue potential.

### MANAGE COSTS

#### FINANCE

Create a budget in seconds that makes sense for both Finance and Operations. Analyze decisions daily to stay on track.

#### LABOR

Get your biggest expense under control. Reduce employee overtime, build efficient schedules, and view labor costs in real time.

### SAVE TIME

#### LOGBOOK

Add convenience, clarity, and automation to your communications. Read/write shift notes on the go.

#### GROUP ANALYTICS

Compare the performance of every location, grouped however you want. Drill down to the smallest detail.

#### API & INTEGRATIONS

Harness your POS data – extracted, cleansed and enhanced by Avero for ad-hoc analysis and storage.
