

Welcome!

You are invited to add your personal retreat to the history of the Clopper House. Dr. Clopper built and used this house as his home and for his medical clinic in the early 1900s.

In addition, Dr. Clopper served as one of Argentine's early mayors. One of the first things you'll notice is the oriental style of the roof. Dr. Clopper saw this style during an overseas trip and brought it back with him to Kansas. The Clopper House was built by Dr. Clopper between 1910-1915. Inside the Clopper House, you'll enjoy the large windows. These windows provide natural light during the day and a great view of the city lights during the evening. From these windows you'll also have a great view of the "History of Argentine Mural" and the downtown Kansas City, Missouri skyline. Included in the personal retreat space is a comfortable, welcoming room for study, rest, recreation, and overnight stay. You can also explore the many nearby attractions in Kansas City, KS and Kansas City, MO. The Clopper House personal retreat space is hosted by Immanuel Community Outreach Association (ICOA). It is located at Immanuel Lutheran Church. We welcome you and hope you enjoy your stay!
