## Projects requiring attention:

- Medical Clinic                      Move shelves, desks, cabinets etc. Scrape and paint interior of clinic.
- Church/MPB                      Scrape and paint interior bathrooms and interior of building.
- Storage building                      Work alongside local construction workers to build a storage building behind the Church/MPB (block building with metal roof).
- Stand-alone dorm                      Install wood panel ceiling to reduce heat in the new dorm building, assemble bunk beds and build a dividing wall, (wood).
