

# Speaker Overview

# Christine Cleaver

## About Christine

Christine Cleaver is a catalyst for learning, connection, and experiential impact. As an educator, facilitator, and experiential learning strategist, Christine designs meaningful learning experiences that connect people, ideas, and purpose. Her work spans higher education, event strategy, and professional development, helping organizations transition from traditional programming to experiences that inspire engagement, reflection, and action.

## Signature Speaking Topics

### 1. Catalyst Leadership: Creating Momentum Through Experience

Learn how leaders can design environments that spark engagement and meaningful change without being the loudest voice in the room.

#### **Audience Takeaways:**

- Understand how experience drives engagement
- Learn to activate people through intentional design
- Apply strategies to lead with influence and purpose

### 2. Designing Experiences That Matter

A deep dive into experiential learning and event design, focusing on creating moments that resonate long after the event ends.

#### **Audience Takeaways:**

- Frameworks for building meaningful experiences
- Tools for aligning purpose, audience, and outcomes
- Strategies for turning participation into impact

### 3. The Future of Learning & Events

Explore how education, technology, and experience design intersect to shape the future of learning and professional development.

## Audience Takeaways:

- Key trends influencing education and events
- How to design learning for relevance and retention
- Insights for adapting to evolving audiences

## Audiences Served

- Higher Education Institutions
- Professional & Industry Associations
- Conference & Event Organizations
- Leadership & Professional Development Programs

## Speaking Formats

- Keynotes
- Workshops & Interactive Sessions
- Panels & Facilitated Conversations
- Retreats & Strategy Sessions

## Why Work with Christine

- Engaging, thoughtful, and highly relatable delivery
- Deep expertise in experiential learning and program design
- A collaborative, audience-centered approach
- Practical insights that participants can apply immediately
