Checklist for Food Service Establishments

The following checklist is provided as a guide for information needed to obtain a permit to construct (renovate/new facilities), remodel or assume a food service establishment.

Ц	A dated floor plan showing location of all equipment, plumbing, electrical and mechanical ventilation. Plans shall be a minimum of 11 x 14 inches in size and the layout of the floor plan accurately drawn to a minimum scale of $\frac{1}{4}$ inch = 1 foot. This is to allow for ease in reading plans.
	Provide a copy of the proposed menu.
	Manufacturer specification sheet for each piece of food service equipment. List all food equipment with model
	numbers. All equipment must be commercial grade and or equivalent.
	Equipment list to indicate if equipment is fixed in place, on casters, or movable.
	All food service equipment to be mounted a minimum of 6" off floor or on wheels.
	Provide hand-washing facilities in all necessary areas (i.e. food preparation, food dispensing and ware washing).
	Show dry storage area.
	Type of floors, walls, and ceilings in food preparation areas (non-porous, smooth easily cleanable).
	Provide a coved base at the floor/wall juncture in the food preparation areas.
	Provide a mop sink. If there is no mop sink, explain how mops will be cleaned and where water will be disposed.
	Provide an area for employees to place personal items (purses, jackets, etc.).
	Provide an area to store toxic items away from food preparation.
	Provide a 3-bay sink with drainboard(s) and/or dish machine (high temperature versus chemical sanitization).
	Provide food prep sink.
	Submit documentation for certified food protection manager (CFPM), if applicable. (See approved testing organization sheet at the back of this packet).
	Provide light schedule (new) or ensure lights are shielded.
	Provide salad bar details, sneeze guard and reach in distance, if applicable.
	Locate floor drains, if required
	Contact Consumer Protection at (860) 713-6160 if proposed establishment is a bakery or grocery store.
	Indicate type of ice machine – water-cooled versus air-cooled.
	Provide appropriate backflow prevention devices where needed.
	Provide a site Plan showing the location of loading/unloading area(s)/ dock(s), external grease interceptor unit (if applicable), well and/or septic system (if applicable).

Will a steam ventilation syst	em be provided	for the dishwash	er?		☐ Yes ☐ N				
Will thermometers, test papers and/or test kits be available for checki sanitizer concentrations at the three-compartment sink and dishwasher					☐ Yes ☐ No				

Mop Cleaning Facilities □ Yes Will a separate mop basin be provided? □ No Handwashing/Toilet Facilities Will there be handwashing sinks in the food preparation, food dispensing, and warewashing ☐ Yes □ No areas? Will self-closing metering faucets provide a flow of water for at least 15 seconds ☐ Yes □ No without the need to reactive the faucet? Will soap dispensers be available at all handwashing sinks? ☐ Yes □ No Will hand drying facilities (paper towels, air blower, etc.) and waste receptacles be available ☐ Yes □ No at all handwashing sinks and in each restroom? Will all toilet rooms be self-closing? ☐ Yes □ No Sewage Disposal ☐ Yes Will the building be connected to a municipal sewer? □ No If **NO**, is the private disposal system approved? □ N/A □ Yes □ No If **YES** – please attach a copy of the written approval and/or permit. **Dressing Rooms** Will separate dressing rooms be provided? □ N/A □ Yes □ No Describe the storage facilities for employees' personal belongings (i.e., purses, coats, boots, umbrellas, etc.)? **Chemical Storage** Will all cleaning materials and toxic items be stored away from food preparation and □ Yes □ No Please describe the location of all toxic item storage – including areas in the food preparation areas where "in-use" chemicals will be stored:

Other

Will there be a basement space available for this food establishment

□ No

☐ Yes

Well Water Testing Requirements

The Connecticut Department of Public Health, through the action of the Connecticut General Assembly, adopted requirements for testing well water. Specifically, the requirements are:

- 1. ALL water samples must be collected by an individual under the direction of a licensed laboratory, a state certified operator as defined in Section 25-32-7a(c) of the regulations of state agencies, or a licensed sanitarian;
- 2. The well water MUST meet the maximum contaminant levels (MCL 'S) of the Connecticut Public Health Code:
- 3. The water has to be analyzed for:

a. Total Coliform Bacteria	i Turbidity
i. Nitrate	j. pH
j. Nitrite	k. Sulfate
k. Sodium	l. Apparent Color
1. Chlorine	m Odor
m. Iron	n. Volatile Organic Chemical (VOC's)
n. Manganese	o. Seven Listed Pesticides if nitrate level is over 10.0
o. Hardness	

4. The Connecticut Department of Health recommends testing for Arsenic and Uranium.

When the results are mailed or faxed to the Plainville Southington regional Health District, a Water Certification Form with signature of the person who took the sample must be included. This is a State Regulation.
