

Charging Power Puck

AX-CPP-2

As a traveling companion to our Heart Healthy Watch, our Charging Power Puck has an internal battery to charge your watch on the go.

1000mAh Battery

Dual magnets for secure positioning of the watch. The green light will flash when the puck is being charged. When it is fully charged and ready to use with the watch, the light will be solid green. When its battery power is less than 10%, the green light starts flashing, indicating that charging is required.

Included USB charging cable.

Green indicator light

Quick Details

Product size 2.125" diam. x .75" high

Product net weight 39g

Battery capacity 1000mAh

Charging

Input method Micro USB

Constant current: when the battery voltage is greater than or equal to 3.0V

Constant current: input 5V 1.2A

Constant pressure 4.2V±1%

Satisfaction condition Voltage≥4.2V±0.05V

Charging time is according to the actual measurement of battery capacity

Display

Indicator display charging: the green light flashes, and the green light is always on when fully charged; the green light is always on when the battery is discharged, and when the battery power is lower than 10%, the green light starts flashing, indicating that charging is required. Low battery indicator will cause the green light to flash.

Button - none

Discharge

Output voltage 5V Overcurrent Protection 1A Discharge efficiency 92%

Short circuit protection Software shuts down output when output is short circuited.
