

Blood Pressure Monitor

AX-B180

Quick and user-friendly operation by just pressing the blue button for measuring and the results will be displayed and can be up-loaded to your account in our portal.

AA Battery powered

Continuously communicates wirelessly with our Gateway.

Record and save measurements for future review.

Instant result displayed on LCD screen.

Automatically sync's to your account in our cloud.

Quick Details

Type	Battery-powered blood pressure monitor with Velcro cuff
Measurement method	Oscillometer measurement
Display	LCD digital display
LCD indication	Pressure: 3 digital display of mmHg Pulse: 3 digital display Symbol: Memory / Heartbeat / Low battery
Measurement range	Pressure: 0 - 299 mmHg (0~39.9kPa) Pulse: 40 - 199 pulses / minute
Measurement accuracy	Pressure: ± 3 mmHg (± 0.4 kPa) Pulse: $\pm 5\%$ of reading
Power Supply	4 x AA Alkaline Batteries
Memory	2 x 90 sets memory of measurement values
Automatic power off	In 1 minute
Unit lifetime	10,000 times under normal use
Battery life	Approximately 300 measurements under normal conditions
Operating conditions	Temp: 40~100 °F Humidity: 15%~85%RH Air pressure: 86kPa~106kPa
Storage environment	Temp: -50~100 °F Humidity: 10%~95%RH avoid crash, sun burn or rain during transportation
Dimensions	Approx. 5.20"L x 4.00"W x 1.75"H
Weight	7.75oz. (batteries excluded)
