

Smoke Detector

AX-SS040

Our compact, battery-powered Smoke Detector uses a photoelectric smoke sensor to reliably detect smoke produced by smoldering fires, helping give you and your family a vital early warning of fire.

Quick Details

Type	Battery-powered blood pressure monitor with Velcro cuff
Size	3.50" diam. X 1.50" high
Red LED	Alarm, heartbeat & testing
Green LED	Pairing to gateway
Operating voltage	DC3V CR123A
Battery life	Up to 2 years
Frequency offset	+/-50khz
Static current	<10uA
Alarm current	<60mA
Sound level	85dB/3m
Communication distance	100m
Bandwidth(MHz)	5MHz
Modulation	OQPSK
Working temperature	-5°C > 65°C
Working humidity	<95%RH
Anti-static requirements	Electrical discharge: +/-8KV, Air discharge: +/- 15KV
