<u>ABSTRACT:</u> Westlake Plastics Company, Lenni, PA – Since 1951 Westlake Plastics Company has been a world leader in extrusion and compression molding technologies of high performance and medical thermoplastics, including PEEK, PEI, PPS, Radel® and other resins. Westlake Plastics is ISO 9001:200 certified and serves today the medical device, aerospace, defense, and advanced electronics industry by supplying film, rod, sheet, slab, and specialty fabricated components. I am pleased to discuss the 2009/2010 trends in supply challenges, (little or no inventory of raw materials, small quantities requested, yet quick response time desired), in the converting specialty resins and compounds into functional forms and shapes.

<u>BIOGRAPHY:</u> Larry Stanislow, Mid-Atlantic Sales Manager, Westlake Plastics Company – Joined Westlake Plastics Company in January 2009. Previously, Larry spent 28 years with Arkema, Inc./Atofina Chemical/Elf Atochem/Pennwalt Corporation in Philadelphia, PA in various sales, marketing, business management of specialty materials; the last 12 years with Technical Polymers engaged managing aspects of the Kynar® PVDF, Rilsan® and Pebax® Polyamide resins. Larry has a B.S. in Polymer Science from Penn State.

## **NEW NJ SAMPE WEBSITE**

Visit www.NJSAMPE.org

We now have a website. It still needs lots of improvement, but it's a start. I need lots of input and recommendations from you to make it useful. All of our sponsors have links to their sites. If you are a sponsor, please make sure it's linked to the right site. If you are a consultant and want your resume on line, we have a place for that too. Also on the website you will find a history of our chapter and even our Bylaws. There's also a history of the Bridge Building contest, going all the way back to when it was only a NJ high school contest.

So visit the website and get back to me with your recommendations and ideas and critiques. Send them to me at <a href="https://linear.com/hskliger@comcast.net">hskliger@comcast.net</a>. Thanks

**Howard Kliger** 

## **NEW MEMBERS**

The New Jersey Chapter would like to welcome the following new chapter members:

## **CORPORATE SPONSORSHIP**

The New Jersey Chapter is inviting your company to be a Corporate Sponsor of the Chapter. By being a corporate sponsor, your company enables the chapter to continue its educational endeavors such as the Bridge Building Contest at the SAMPE Symposium and Exhibition and hold monthly technical meetings. The New Jersey Chapter sponsored the 2009 Fall Technical Conference with the Wichita Chapter in October 2009 in Wichita, KS. In addition, your contribution enables the chapter to publish the monthly newsletter, conduct one day seminars and sponsor international conferences and exhibitions. These activities have helped the chapter become one of the best chapters in SAMPE.

During the current fiscal year, the chapter has planned a variety of topics to be presented at our monthly meetings. These topics include: NDE of Multilayered Composites, Development and Testing of Prestressed Carbon Fiber Composite Overwrapped Gun Tubes, UV Curing of Polymers, PET Extrusion of Recycled Plastics for Railroad Ties and Bridge Beams and High Performance Thermoplastics. Also, the Chapter will hold its 27<sup>TH</sup> Annual Golf Tournament on July 8, 2010 at the Picatinny Arsenal Golf Course in New Jersey.

In addition, the Chapter has revised its newsletter to provide greater recognition of its sponsors. A sponsor's corner has been included for sponsors to highlight new product announcements, new business activities, processes and informative information concerning your company. Please submit any items for inclusion in the newsletter to me by email at sampejohn@yahoo.com.

The New Jersey Chapter of SAMPE is currently in the process of developing a web site. The web site is being planned as a service to the members to provide additional information including all Chapter Newsletters, the Chapter's History and By-laws. There will also be a pages and links where the Chapter Sponsors can post expanded information concerning their company and product lines. Additional information concerning this page will be available shortly.

If your company has any interesting topic or speaker for a future meeting, please notify me and the chapter will try to arrange the presentation in the near future.

If you have any questions, regarding corporate sponsorship, please email me at <a href="mailto:sampejohn@yahoo.com">sampejohn@yahoo.com</a>.
