Society for the Advancement of Materials and Process Engineering New Jersey Chapter 35th Anniversary

Spotlighting a NJ SAMPE Company Sponsor – Evonik Degussa Corp.

Starting this month, we will feature one of our corporate sponsors:

Evonik Degussa Corporation, Parsippany, NJ, has been a supporter of NJ SAMPE since 2007. One of the world's leading specialty chemical companies, Evonik's product offerings to the composites industry include structural foams; thermoplastic and thermoset matrix resins; amine and anhydride curatives; a broad portfolio of fine chemical intermediates for the formulation of advanced materials; and custom-manufacturing services. Borys Schafran, Director, Marketing & Business Development for Evonik's Advanced Intermediates business unit, has derived sustainable value from the NJ chapter over the years.

He sums it up as follows: "I was invited to give a presentation at a monthly meeting of the chapter back in May 2007, and ever since then, I have networked with this group, learned extensively about the composites industry and developed a more robust strategy for my business area. The chapter's membership, a combination of retired industry veterans and those like me moving up in the ranks, get along well. I have since been invited to join the NJ SAMPE Board and now find it my duty to keep up the good work of the chapter. I encourage anyone, especially young professionals, to seek out this group and benefit as I have."

Borys Schafran
