

We are pleased to present the featured Guest Speaker for our September 8th Meeting:

## Issues of Corrosion and Lead in Drinking Water

Steve Medlar  
Adjunct Professor of Civil Engineering  
Rutgers University

### Abstract

The presentation will focus on corrosion and lead in drinking water. Recently, the public and press have been very concerned with lead in water as a consequence of leaching from household piping. The discussion will present background on the Flint crisis, but also on the National implications of lead in drinking water. Causes, solutions and toxicity will be presented including what one can do at home.

### Biography

Steve Medlar P.E. is an Adjunct Professor of Civil and Environmental Engineering at Rutgers University. He teaches design courses in the Graduate School of Engineering. He is a retired Senior Vice President and Technical Expert at CDM Smith and has been responsible for literally hundreds of drinking water treatment plants and systems in the U.S., Canada, Middle East and Russia. He is considered an expert in corrosion, treatment and lead control in drinking water. He is presently working on a number of lead and corrosion control projects in New Jersey.
