## Sponsor of the Month: Airtech Advanced Materials Group

This new year, 2018, marks the 45<sup>th</sup> anniversary of Airtech Advanced Materials Group. The company will be celebrating all year long at all worldwide locations. To celebrate the 45<sup>th</sup> anniversary, Airtech has created a custom logo that will be featured throughout 2018 and has planned company and family events through the year.

45 years ago, Airtech founder Mr. William “Bill” Dahlgren, an inspired engineer, started the business with four people in San Bernardino, California. Bill is still very much active in the family business.

The main goal of the business was to create a “one stop shop” and to manufacture vacuum bagging and composite tooling materials for the fiberglass and graphite parts industry. With a dream in mind, persistency, and lots of hard work, the company grew to over 800 employees,

manufacturing in five different locations – Huntington Beach, CA (corporate headquarters); Springfield, TN; Differdange, Luxembourg; Chadderton, England; and Tianjin, China.

Airtech is still privately owned and operated, and dominates the worldwide vacuum bagging market. Airtech President/CEO Jeff Dahlgren said, “From this humble beginning, we have grown into a world class company and leaders in the field of composites. A special Thank You to our loyal employees, customers, and partners.”

Airtech continues to innovate and meet the demands of its growing markets. Airtech is an ISO 9001:2008/AS9100 RevC Certified Company.

Join Airtech in celebrating throughout 2018 at all five worldwide locations.
