

## **Call for Extended Abstracts**

### **New Jersey Additive Manufacturing Symposium**

#### **Rutgers University – New Brunswick**

#### **Richard Weeks Hall of Engineering**

**June 14, 2019**

The NJChapter of SAMPE(Society for the Advancement of Material and Process Engineering), in cooperation with the Rutgers School of Engineering, is sponsoring a one-day symposium at Rutgers highlighting additive manufacturing technology, research, and collaboration in the Greater New Jersey metropolitan area. This will be an opportunity for material and equipment suppliers to showcase their products and for researchers to present their ongoing projects and interests and explore collaboration and sponsorship opportunities. Sessions will include:

**Processes and research**  
**Materials development**  
**Equipment development**  
**Production experience and applications**

We invite participants from universities and research institutions to submit extended abstracts for this initial symposium. The Symposium will collect and distribute all presentation materials. No formal papers are required for presentations.

Deadline for abstracts: April 30, 2019 (Acceptance notification by May 15, 2019)

Submit abstracts to: [3Dprinting@njsampe.org](mailto:3Dprinting@njsampe.org)

Additional information, including Registration fees and an abstract template can be found at <http://www.njsampe.org>
