

2023 Regional Additive Manufacturing Symposium

Thursday June 22, 2023

Rowan University - Rowan Hall

Glassboro, NJ

CALL FOR PRESENTATIONS

ABSTRACTS DUE MARCH 31

The New Jersey Chapter of SAMPE, in cooperation with the Rowan University College of Engineering and AMMI, is sponsoring a one-day symposium to highlight advancements in additive manufacturing technology and related research initiatives in the Greater NJ/NY/PA/CT area.

This event will provide an opportunity for researchers to present their ongoing projects, and for material and equipment suppliers to share technical reports or application data for their products.

Topics of interest include, but are not limited to:

- Additive manufacturing processes
- Novel materials
- Equipment developments
- Production experience and applications
- Challenges to wide-scale implementation
- Technical collaboration initiatives

We invite research personnel, equipment/material suppliers, software developers, and end users/manufacturers to submit brief abstracts (400 word max) of presentations to be made at the Symposium.

No formal papers are required for presentations. Poster presentations will also be considered.

The Symposium will collect and distribute all presentation materials to attendees.

Send all questions and submit abstracts in Word format (name.docx) to: melissa@njsampe.org

ABOUT THE ORGANIZERS

New Jersey Chapter of SAMPE

The Society for the Advancement of Material and Process Engineering (SAMPE) is a global professional member society that provides growth and educational opportunities in new and advanced materials and processing technology. As the only technical society encompassing all fields of endeavor in materials and processes, SAMPE provides a unique and valuable forum for scientists, engineers, and academicians. Established in 1977, the New Jersey Chapter of SAMPE serves members in NJ, NY, PA, and CT. The chapter was designated as SAMPE North America's first Center of Excellence in Additive Manufacturing in 2018.

Rowan University's AMMI

The Advanced Materials & Manufacturing Institute (AMMI) focuses on advancing fundamental and applied science and engineering technology related to materials and manufacturing with the vision to responsibly utilize nature's chemistries to enhance material performance and improve global sustainability. They partner with industry leaders, government agencies, non-profits, other universities, and community colleges to address challenges in education, food & water, energy, national security, and sustainability at both the national and local level.

Please visit www.njsampe.org or contact inquiry@njsampe.org for more information about this event.
