

CALL FOR SPONSORS

2024 Regional Additive Manufacturing Symposium

Wednesday, August 21

Rowan University - Rowan Hall

Glassboro, NJ

ABOUT THE SYMPOSIUM

The New Jersey Chapter of SAMPE, in cooperation with the Rowan University College of Engineering and AMMI, is hosting a one-day symposium to highlight advancements in additive manufacturing technology and related research initiatives in the Greater NJ/NY/PA/CT area.

This event will provide a forum for suppliers to showcase their products and for researchers to present their ongoing work. All participants are encouraged to explore collaboration opportunities.

We have invited participants from universities, research institutions, equipment/material suppliers, software developers, and end users/manufacturers to submit abstracts for consideration.

Visit www.njsampe.org or contact inquiry@njsampe.org for more information about this event.

SPONSORSHIP OPPORTUNITIES

- Event Sponsor (logo in program, on website, etc...) \$300
- Exhibitor Table (includes 1 attendee) \$500
- Breakfast (4 sponsors) \$250 each
- Lunch (6 sponsors) \$250 each
- Student Poster Contest Awards \$100, \$50, and \$25
- Student Registrations \$25 each

Please send sponsorship inquiries to megan@njsampe.org.

Sponsors will receive a discount code for their professional [attendee registration](#).

ABOUT THE ORGANIZERS

New Jersey Chapter of SAMPE

The Society for the Advancement of Material and Process Engineering (SAMPE) is a global professional member society that provides growth and educational opportunities in new and advanced materials and processing technology. As the only technical society encompassing all fields of endeavor in materials and processes, SAMPE provides a unique and valuable forum for scientists, engineers, and academicians. Established in 1977, the New Jersey Chapter of SAMPE serves members in NJ, NY, PA, and CT. The chapter was designated as SAMPE North America's first Center of Excellence in Additive Manufacturing in 2018.

Rowan University's AMMI

The Advanced Materials & Manufacturing Institute (AMMI) focuses on advancing fundamental and applied science and engineering technology related to materials and manufacturing with the vision to responsibly utilize nature's chemistries to enhance material performance and improve global sustainability. They partner with industry leaders, government agencies, non-profits, other universities, and community colleges to address challenges in education, food & water, energy, national security, and sustainability at both the national and local level.
