Free registration

Registration deadline:
23rd September 2026

**TCH Early
Career Award**

Interesting at presenting? Submit an abstract via registration. The top abstracts will be selected for short oral presentations, from which the TCH Early Career Awardee will be chosen

Keynote Speakers

Luca Gattinoni
Leibniz Institute for
Immunotherapy, Regensburg

Kristian Helin
The Institute of Cancer Research,
London

William Muller
McGill University, Montreal

Julieta Alfonso
Nature Cancer

Sponsors

08:30 - 09:00	Coffee and Registration
9:00 – 11:00	Session 1: Clinical advances in cancer treatment (host Henrik Ditzel)
09:00 - 09:45	Luca Gattinoni (Keynote Speaker) Leibniz Institute for Immunotherapy, Regensburg (35 min + 10 min) Building CAR-T Cells that last: The Tscm blueprint
09:45 - 10:30	Annette Kodahl Dept. Oncology, Odense University Hospital (25 min + 10 min) Precision Oncology in Clinical Practice
10:30 - 11:00	Michael Bau Mortensen Dept. Surgery, Odense University Hospital (25 min + 5 min) IMPACT trials: Pressurized Intraperitoneal and Pleural Aerosol Chemotherapy (PIPAC/PITAC) in advanced cancer disease
11:00 - 11:15	Coffee break
11:15 - 13:00	Session 2: Molecular Determinants of Cancer Cell States and Plasticity (host Vijay Tiwari)
11:15 - 12:00	Kristian Helin (Keynote Speaker) The Institute of Cancer Research, London (35 min + 10 min) Identifying Novel Therapeutic Targets for Acute Myeloid Leukaemia
12:00 - 12:35	Jonas Graversen University of Southern Denmark (25 min + 10 min) Targeting the CD163 positive subset of tumor associated macrophages
12:35 - 13:10	Carla Maria Lourenco Alves University of Southern Denmark (25 min + 10 min) Patient-derived models of tumor-microenvironment interactions in breast cancer
13:10 - 14:30	Lunch, Poster session & Networking
14:30 - xxx	Session 3: Advances in Cancer Cell Biology and Tumor Dynamics (host Paolo Ceppi)
14:30 - 15:15	William Muller (Keynote Speaker) McGill University, Montreal (35 min + 10 min) Oncogene-mediated modulation of immune tumour microenvironment Genetically Engineered Mouse Models of human breast Cancer
15:15 - 15:45	Daniel Wüstner University of Southern Denmark (25 min + 10 min) Seeing Sterols in Cancer: From Intracellular Traffic to Tumor Biology
15:45 - 16:20	Julieta Alfonso Nature Cancer (25m+10m) The insider's guide to Nature Cancer
16:20 - 16:40	Short-talks mini symposium (4 X 5 minutes)
16:50 - 17:00	TCH Early Career Award Panel Discussion And Conclusions
17:00 - 18:00	Reception & Networking
