SMALL CROSS SECTION LUMINAIRES / MADE IN USA

FEATURES AND BENEFITS

- Ideal applications are: office spaces, task, aisle, overhead, stairway and hospitality.
- Extremely efficient LED's with up to 124 Lumens per watt.*
- Three light levels to choose from: Normal which is approximately 5 watts and 615 lumens per foot, High which is about 40% more light, very High (about double the light of normal) for when mounted above 10' or where more light is desired. Light output can also be factory customized to meet your lumen or wattage needs.
- 1% 0-10v dimming option available, phase dimming also available.
- An **Occupancy/Daylight sensor** can be specified to meet IECC-2012 and CA Title 24 requirements. The lens mounted sensor adds approximately 2-1/2" to the OAL of the fixture. The sensor has a variety of adjustments including time, motion and ambient light level sensitivity. Sensor is easy to access by un-snapping the lens.

CONSTRUCTION: Premium 6063-T5 extruded aluminum with .060 minimum wall thickness, aluminum end caps with no visible fasteners, extruded impact resistant, high diffusion frosted acrylic lens.

VOLTAGE: Equipped with integral 120/277v FCC approved driver standard, several dimming options available.

MOUNTING: Two mounting slots allow mounting directly to ceiling or wall, optional aircraft cable and canopies available. For continuous row mounting remove end caps where luminaires meet and use internal couplers provided to make a seamless link. If ordered with cable hangers 4' adjustable cables and white canopies standard. For other cable lengths or canopy finishes consult factory

LISTING: ETL Listed damp location.

WARRANTY: 5 year limited warranty, see Airey-Thompson distributor terms and conditions for more details.
