Dear Governing Board,

We kindly request that you postpone the item about the Superintendent Goals from your agenda set for Oct 23, 2017 until a later meeting. We also suggest that the goals include student achievement as well as incorporate all the work that went in to the superintendent search process. We do hope that you honor our request to postpone this item and make the item available to allow for community input in a good faith move of transparency and respect for those you serve.

Sincerely,

Coalition for Accountability, Respect and Excellence

CC Dr. Trujillo
