WHAT'S YOUR NEXT STEP?

YOUTH

Advocate for military kids in Iowa and start connecting with kids like you.

PARENTS/SOLDIERS

Check yes on the MSI in your school's registration and talk to you school's admin. department.

SCHOOLS

Request a School Implementation Kit and start practically supporting for military students.

Military kids experience many ups and downs in their life. If they feel supported through it all, they'll have a positive perception of the military and be better prepared to transition into adult life. If we can defeat the gaps and put these students on the map, the potential impact is exponential.
