

Download the App Now!

Smart Alert Tech is designed to keep check of your loved ones so you don't have to worry. We offer a simple and unobtrusive way to monitor your loved one's daily life and only be alerted to interruptions in their routine. This Subscription-Free solution empowers families to feel in control of the well being of those they care for most.

A NEW SMART MONITORING SYSTEM

SUBSCRIPTION FREE, PEACE OF MIND

No more costly monthly monitoring services. For a one time fee, families can take comfort and have peace of mind from anywhere, any time.

ENDLESS COMPATIBILITY

Our Wi-Fi enabled sensor can be placed anywhere and the plug can be used with virtually any household electronic device. Pick a device that is used in daily life and pair it with our Smart Plug.

NOT JUST ANY SMART DEVICE

Although our plug and sensor do have many of the same features as traditional models, our dedicated App and new functionality make Smart Alert Tech an exciting new option to keep your family safe.

OFFLINE NOTIFICATIONS

If there is an interruption in service, such as a loss of power, Wi-Fi, the plug becomes detached, or the batteries are low in the sensor, you will receive a notification alerting you to the problem.

VIRTUAL ACCESS

Change alert times, power on/off, set vacation timers, check electricity usage and more, from any where in the world. Grant access to additional family members, friends or care givers through the App.

PATENT PENDING TECHNOLOGY

SMART ALERT TECH

www.smartalerttech.com

HOW DOES IT WORK?

A simple example:

Imagine your elderly mother lives alone in NY, while you live in Florida. You want to keep an eye on her, but not pester her with constant phone calls, invasive "panic buttons" or costly monitoring.

Determine she wakes up between 7-9am and uses her coffee maker every morning.

Plug in your Smart Alert Tech, then the coffee maker. Pair the plug with the app, set an alert from 7am-9am.

If your mother does not use her coffee maker in that timeframe, you and anyone with access to the free app, will receive a push notification that it was not used.

You now know that your mother may need assistance and you can contact her to check in.

SMART PLUG

SAT-1055

- Wi-Fi Enabled Smart Plug
- 120V, 15A max
- Firmware OTA upgrade supported
- Pairs with dedicated App
- App operated control of System
