

BECAUSE FAMILIES DO CARE

Results from 100 American pet owners
surveyed in July 2019:

*The importance of how a pet's body
is handled after death.*

EUTHABAG®

Depart with dignity.

MYTH #1

Pet owners **don't care** about the bag being used to dispose of their pet's body:

REALITY: 71% of the pet owners prefer that their pet's body is placed in an adapted pet body bag rather than in a plastic bag.

MYTH #2

Pet owners are not **willing to pay** an additional cost for a specifically adapted pet body bag.

REALITY: 82% would **pay** for their pet to be in a body bag.

57% would pay more than \$10

25% would pay up to \$10

18% would pay almost anything to prevent them from being placed into a plastic bag

The average cost of a EUTHABAG is \$8

MYTH #3

Using plastic bags instead of a body bag won't impact a **client's opinion**.

REALITY: 39% say it would negatively affect their perception of the clinic's standard of care.

EUTHABAG: THE NEW STANDARD OF CARE

Our patients and veterinary teams deserve to use a professional and respectful body bag.

Endorsed by Dr. Kathleen Cooney, founder of the Companion Animal Euthanasia Training Academy (CAETA) and a key opinion leader in end-of life care.

Now in **15** countries

Used in **7** veterinary schools

Thousands of practices feel better

"All my patients deserve this respect; my employees too."

— M-C.L., DMV

Would you prefer that your pet's body is placed in a professional/designated pet body bag instead of a plastic garbage-like bag?

What would you be willing to pay to have your pet's body placed in a respectful body bag?

What would be your opinion of a veterinary practice that uses plastic bags to place your pet's deceased body in?

IT WOULD NEGATIVELY IMPACT MY PERCEPTION OF THEIR STANDARD OF CARE
