

Dear Parents/ Guardians,

One of the goals of Sousa's Home and School Association (HSA) is to ensure that everyone has the same opportunity to participate in the Sousa community. As a result, this letter is being sent home from the HSA regarding personal information being distributed within your child's class.

At Open House Night, all parents have the option to have their personal information shared amongst members of the class only. This information will allow communication between the teacher and parents about organizing cooking labs, chaperoning field trips, contributing to class parties, and being reminded about class activities / events.

Because Sousa Elementary School is not allowed to share any personal information with the HSA, this is the HSA's attempt to give you the option of having your personal information shared within your child's class.

If you choose to share your information, you can either contact your class liaison or you can send a note with your approval in your child's backpack in an envelope addressed to the "HSA".

We look forward to a great year!
