Spotlight Story

Building a Restorative Oasis

On April 2nd, our students traded their pens for gardening tools to launch our new Campus Beautification Project. Every Thursday through the end of the school year, our scholars will be hard at work planting for the spring and revitalizing our outdoor spaces. This initiative is a direct reflection of our commitment to Restorative Care, utilizing the natural environment to foster peace and wellness. Looking ahead to next year, these improved grounds will serve as a dedicated hub for outdoor learning, social connection, and student wellness activities. We are literally planting the seeds for a more vibrant, restorative future!!

As we approach the conclusion of another remarkable year, I want to express my profound pride in the effort and dedication shown by our student body. I am consistently inspired by the resilience of our scholars, whose hard work this year has laid a powerful foundation for their future success.

We look forward to closing out this school year with excellence as we begin the exciting journey of planning for our first-ever Graduating Class of 2027 next year! At Favor Transition Academy, we remain committed to building bigger and better year after year, expanding our impact and the opportunities available to our youth. Thank you for your continued partnership in this restorative journey.

In Service and Excellence,
Dr. Angela C. Young, Ed.D

Spotlight on Excellence: Mapping the Path Forward

Principal Notes

This term, our scholars have been diving deep into their futures through our Pre-Employment Transition Services (PRETS) lessons. These sessions go beyond simple career interest; they challenge students to create concrete, actionable plans for life after graduation. We are especially proud that these lessons are facilitated by our School Mental Health Therapist, Ms. Huggins. By having a therapist lead this work, we ensure that our students' career goals are aligned with their emotional strengths and personal wellness, making their "Plan A" more attainable than ever.
