## Spotlight Story

As a Restorative High School, student-led service projects are a key expectation. This November, our high schoolers successfully completed two impactful community service events rooted in the restorative principle of Repairing the Community:

- Students prepared and distributed Thanksgiving baskets to families in need throughout Douglas County, directly addressing food insecurity during the holiday season.
- Students [provided reading books, received through the **Chick-Fil-A Leadership Program**, to local elementary school students, helping to promote literacy and mentorship.

These projects were entirely student-led, showcasing their commitment to service and demonstrating our core value of giving back to our neighbors. We are proud of their work in action!

As the first semester draws to a close, I want to express my profound pride in our student body. I am consistently inspired to lead such a resilient and tenacious group of young people.

We look forward to ending the term successfully and immediately turning our focus to exploring new and exciting opportunities to support student growth and success in the coming semester. Wishing all of our families a safe and Happy Thanksgiving!

Dr. Angela C. Young, Principal

### Principal Notes

We are thrilled to formally introduce Taniah Huggins, MSW, LSW, our dedicated School Therapist!

In support of our school-wide focus on mental wellness, Taniah is responsible for providing daily mental health support and counseling to our students. She is already a student favorite, known for truly engaging students in thoughtful change processes. Taniah is instrumental in helping students strengthen their social, psychological, and behavioral development, ensuring they have the tools to thrive both in and out of the classroom.
