Spotlight Story

Bringing the Curriculum to Life

We are kicking off 2026 with a renewed focus on strengthening our learning through immersive, hands-on experiences. This month, our scholars dived into a series of interactive science experiments, bridging the gap between theory and practice while adhering to the rigorous Georgia Standards of Excellence for high school science and math. By engaging in these tactile activities, students are not just memorizing formulas; they are developing the critical thinking and problem-solving skills necessary for post-secondary success. At Favor Transition Academy, we believe that when students see science and math in action, they aren't just learning—they are discovering their potential as future innovators.

As we step into the brand-new year, I want to wish all of our families and supporters a very Happy New Year! We enter 2026 filled with a renewed sense of hope and a steadfast commitment to the restorative mission that defines Favor Transition Academy.

This year, we are excited to expand our hands-on learning opportunities—from interactive science experiments to vocational exploration—ensuring our students continue to grow both academically and emotionally. We remain dedicated to providing restorative experiences that offer dual benefits to our students and the community we serve.

Thank you for your continued partnership as we build a sanctuary of hope and prepare our students for a successful future.

In Service and Excellence,
Dr. Angela C. Young, Ed.D.
Executive Director & Principal

Principal Notes

As we step into 2026, Favor Transition Academy is placing restorative opportunities at the forefront of our mission. We are deepening our commitment to this work by expanding lessons and learning experiences that provide dual benefits to our students and the community they serve. By engaging in these purposeful projects, our scholars gain valuable real-world skills while actively "Repairing the Community," ensuring that their growth leads to a stronger, more connected Douglasville. We look forward to a year of building bigger and better as we cultivate a future of mutual success for our youth and our neighbors.
