Spotlight Story

Spreading Holiday Hope

During our December community service project, scholars at Favor Transition Academy worked together to sort, pack, and distribute toys for nearly 75 local families. This student-led initiative was a meaningful way for our youth to give back and ensure that children in our community could enjoy bright holiday memories. By stepping into these leadership roles, our students demonstrated the heart of our restorative mission —repairing and strengthening the community through active service and compassion.

As we approach the conclusion of the first half of our school year, I want to express my profound pride in the effort and dedication shown by our student body. I am consistently inspired by the resilience of our scholars, who recently demonstrated their commitment to "Repairing the Community" by sorting, packing, and distributing toys to nearly 75 local families.

These acts of service do more than provide holiday cheer; they allow our students to internalize a deep sense of pride and purpose, which is vital to their restorative journey. Thank you for your continued partnership in this restorative journey.

In Service and Excellence,
Dr. Angela C. Young, Ed.D.
Executive Director & Principal

Principal Notes

At Favor Transition Academy, we believe that "Repairing the Community" is as much about the student's growth as it is about the families we serve. Engaging in acts of service, like our December toy drive, has a profound impact on the human psyche. When our scholars give back, they internalize feelings of good cheer and a deep sense of pride. This process is vital to the restorative journey, as it shifts a student's self-perception from being a recipient of care to a provider of hope. By creating these positive holiday memories for others, our students strengthen their own emotional resilience and develop a lasting sense of purpose.
