Spotlight Story

A Tribute to the Heart of Favor

As we bring this remarkable school year to a close, we want to extend a special tribute to the two pillars of our scholars' success: our dedicated teachers and our supportive parents. In honor of Teacher Appreciation Week and Mother's Day, our students engaged in a beautiful project that combined creativity with deep gratitude.

Thanks to the generous flower donations from Perfected Events Atlanta, our scholars spent time crafting personalized floral arrangements. These bouquets were more than just gifts; they were a tangible expression of appreciation for the educators who pour into our students daily and the mothers who provide the unwavering foundation at home.

At Favor Transition Academy, we know that true restorative growth happens in a community where everyone feels seen and valued. Seeing our students take such care in creating these arrangements was a powerful reminder of the empathy and leadership skills they have cultivated all year. To our teachers and mothers: thank you for being our partners in this journey and for helping us build a sanctuary of hope.

Celebrating Our Foundation As we look toward our first graduating class of 2027, I am reminded that our progress is only possible because of the synergy between home and school. This year has been a testament to what we can achieve when we "build bigger and better" together. To our teachers, who facilitate excellence in the classroom, and our parents, who champion our students' potential—you are the heart of Favor. We wish you all a restful and joyous summer!

In Service and Excellence,

Executive Director & Principal

Measuring Excellence: Our Evidence of Growth

As we close out the school year, we are transitioning into our final assessment period to measure and celebrate the incredible progress of our scholars. To cement and demonstrate student learning over the past year, we will be utilizing high-stakes evidence measures, including:

- Final Exams: Comprehensive evaluations of course mastery.
- Aimsweb: Assessing fundamental academic skills and growth.
- SAT 10 Assessment: A rigorous measure of student achievement and readiness.

These tools provide the data necessary to validate the success of our Restorative Learning Model and ensure every student is prepared for their next academic chapter. We are confident that these results will reflect the resilience and hard work our students have displayed all year long!
