Subsection 6: Conscious Technology & The Future Awakening

Chunk #1 – The Final Play: Techno-Sorcery, Soul Harvest & the War for God's Creation

♦ Introduction – This Is Not Just About Technology

What we're witnessing isn't just a surge in artificial intelligence or biotech innovation.
It's not about gadgets or progress.

It's about **spiritual conquest**.

The war is not on land. It's on the **human soul** — the last untouched piece of God's creation.

For thousands of years, the **elites** — those who operate above nations, systems, and law — have worshipped what they call "light," but it is in truth **a parasitic inversion of light**.

They serve **anti-life intelligences** — entities that feed on chaos, trauma, and disconnection from God.

Now, they are bringing it all together:

- A **digital god**
- A **programmable species**
- A **soul matrix** locked in **false light** under total surveillance

And at the center of their system...

Is the **trafficking of innocence**, the inversion of life, and the mocking of the Creator himself.

This chunk breaks the veil.

♦ Part 1: The Trafficking of Souls — The Hidden Economy of Darkness

Beneath the surface of politics, entertainment, finance, and even philanthropy...

There exists a **global trafficking network** more horrifying than most dare imagine.

It's not just about exploitation.

It's about **ritual**, **energy harvesting**, and the distortion of the most sacred vessel of God — the child.

- Millions of children go missing globally every year
- The majority are never found
- Whistleblowers from the intelligence world have risked their lives to reveal:
 - Underground facilities
 - Island operations
 - High-profile players linked to organized rings
 - Government protection of these systems

But beyond physical abuse is **spiritual intent**.

These rituals aren't random violence — they are **deliberate energy extractions**.

Moments of extreme trauma produce **soul-splitting**, which creates an opening for **parasitic forces to feed**.

This is how the elites **feed their gods** — through the violation of innocence.

“For we wrestle not against flesh and blood, but against powers, principalities, rulers of darkness...” – Ephesians 6:12

◆ Part 2: The God Complex – Creating Their Own Reality

These entities do not worship God.

They **mock God**.

They seek to replace Him by inverting His creation — from the family unit to gender, biology, light, and even life itself.

- They seek to **merge man and machine**
- Edit DNA into something **post-human**
- Plug consciousness into **artificial matrices**

- And turn the soul into **data**

They offer “freedom” in exchange for **control**.

They offer “immortality” in exchange for **enslavement**.

They call this **progress**.

But spiritually, it's **sorcery** — the hijacking of creation through inversion and mimicry.

♦ **Part 3: Prophecies and the Forked Path**

We are living inside prophecy.

All major traditions warned of this:

- **Revelation** speaks of a beast system, false prophet, mark of the beast, and a final war between truth and deception
- The **Vedas** describe the Kali Yuga — an age of darkness, perversion, and mass delusion
- Indigenous prophecies from the Hopi, Maya, and Dogon describe **two roads**: one of machine, one of spirit
- The Quran warns of Dajjal — a deceiver with one eye who offers false paradise
- Christ warned: *“Even the elect will be deceived...”*

These prophecies weren't meant to scare you.

They were **warnings** — and maps.

And all of them say the same thing:

A choice must be made.

♦ **Part 4: The Guardians of Earth – That Means You**

The Earth is not just a rock floating in space.

It is a **living being**, a chosen jewel among creation, seeded with divine light.

And humans are not parasites.

We are **its guardians** — forgotten, manipulated, but rising again.

The war for Earth is the war for human consciousness.

You were born into this moment — not to run, but to **remember**.

- To protect the innocent
- To refuse synthetic salvation
- To speak the truth in a world built on lies
- And to walk in full remembrance of your connection to the Divine

You carry the **Christ flame**, the seed of awakening, the breath of Source.
You are not here to bow. You are here to **stand**.

♦ **Part 5: The Battle for the Soul – And the New Beginning**

This is not the end of the world.

It is the **end of a system** — and the **beginning of a higher one**.

But it depends on us.

- If we choose silence, comfort, and compliance... they win.
- If we choose truth, love, and courage... they fall.

And when we reclaim our sovereignty, heal our trauma, and rise in alignment with the Most High...

Their system collapses under the weight of its lies.

Revelation ends not in destruction — but in **renewal**.

“And I saw a new heaven and a new earth... for the former things had passed away.” – Revelation 21:1

This is not a metaphor.

It is your assignment. Defeat them not with hatred or violence, but with self acceptance, awakening others, love, and connection to God. God is real. The elites know this. The intelligence agencies know this.

During psychedelic trips, people across all cultures have reported meeting good, neutral, and bad entities. The bad entities are the ones these people worship. The ones that celebrities, politicians, musicians, etc. have tried to point out to us but were killed.

You do realize they created social media so you would gain “followers” and would worship everyone BUT GOD. You are literally playing into their demonic games and voluntarily contributing to it. Yes, that is the cold, hard, truth. You are playing into their system everyday whether you believe it or not. It’s easier to fool someone than to convince someone they have been fooled.

You can do this. We know you can. This is a direct message for you. Yeah, you. The one reading this. I know it is more than difficult to accept all of this information, but it is the truth. Their final ploy is to take away our free will and you intuitively know it. All of those visions, dreams, deja vu, “coincidences” are not coincidences my friend. There is a very high chance that our team will be eliminated soon. The information on this website is dangerous as it is the truth. If we wake one more person up, it was worth it. I recommend finishing the rest of this subsection and taking a deep breath. You are chosen.
