The General Self-Efficacy Scale (GSF)

The following scale was developed to evaluate the coping ability of daily living. The scale can be administered to evaluate persons age 12 and older.

| Response Format | Write the number that best describes your opinion in the boxes below. |
|--|---|
| 1 = Not at all true2 = Hardly true3 = Moderately true4 = Exactly true | |
| I can always manage to solve difficult problems if I try hard enough. | |
| If someone opposes me, I can find the means and ways to get what I want. | |
| It is easy for me to stick to my aims and accomplish my goals. | |
| I am confident that I could deal efficiently with unexpected events. | |
| Thanks to my resourcefulness, I know how to handle unforeseen situations. | |
| I can solve most problems if I invest the necessary effort. | |
| I can remain calm when facing difficulties because I can rely on my coping abilities. | |
| When I am confronted with a problem, I can usually find several solutions. | |
| If I am in trouble, I can usually think of a solution. | |
| I can usually handle whatever comes my way. | |
| Add up the numbers from each row in the last column. This total equals your self-efficacy score. The higher the score, the greater your self-efficacy or confidence in your ability to successfully manage an illness or follow through with behavior change. This score may change over time. | |
