

Your Choice for Mayor of Prescott

The Differences are Crystal Clear

Incumbent Mayor Greg Mengarelli	Mayoral Candidate City Councilman Phil Goode
Campaign is supported by Developers	Has not taken any money from Developers, never has, never will – only private donations accepted
Uses a team of Lawyers to try to dig up dirt on Phil	Decorated Vietnam combat veteran with integrity - Phil stands on principles
Hired a professional marketing team to craft his campaign messages	Relies on citizen volunteers who, like Phil, genuinely care about Prescott's future
States he is open to spending road tax revenue to buy open space, which is contrary to the road tax bill passed by voters	Will keep the promise to the voters to use the road tax money for badly needed road repair, improvement and expansion
Refuses to provide a "Call to the Public" at council meetings where citizens are freely able to voice their concerns	Will restore the "Call to the Public"
Limits scheduled public comment during council meetings to three minutes and instituted a green/yellow/red light system to limit and impede citizen input	Will eliminate the light system and respect the public's right to be heard
Was recently hired by the Prescott Rodeo Association, which is on city property and financially supported by the city, and whose President runs a paving company that did over \$30,000,000 in business with the city over the past five years	Has no conflict of interest and will devote himself full time to serving the people of Prescott
States that Prescott will use only half the water the state allows and does not see a problem even as well water levels continue to drop and go dry	Wants to return to a more conservative water policy to secure Prescott's future
Tries to take credit for the "Save the Dells" deal	Is actually supported by "Save the Dells"

Phil Goode
