

Hello Buddhaful People,

I'm writing this **"Love Note"** to you on **Friday, November 1, 2024.**

As we step into November, we're greeted by the potent **Scorpio New Moon** and the **11/1 Portal**—two powerful energies that open the month with profound potential for transformation and new beginnings. Scorpio, known for its depth and intensity, encourages us to let go of what no longer serves us, embrace the mysteries within, and align with our inner truths. This month is also marked by anticipation as we approach the **Election**, reflecting our collective hopes and anxieties about the future.

On November 19th, **Pluto will re-enter Aquarius**, marking the beginning of a **Transformative 20-year Cycle** that will last until 2044. This powerful shift invites us to release old patterns and align with forward-thinking energies, both individually and collectively. It's a moment that promotes social innovation, deep personal growth, and harmony in ways that prepare us for long-term transformation. Let's not forget that **Mercury Retrograde** will also make its appearance on the 25th, staying with us for three weeks!

In a season where change and uncertainty are at the forefront, **Tantra** and **Buddhist Teachings** on **Non-attachment** and **Impermanence** offer timely guidance. The holidays often bring challenges around attachments, from family dynamics to indulgences that we may turn to for comfort. By embracing impermanence, we can better navigate situations where outcomes are beyond our control, whether in personal matters, world events, or even the election results. **Tantra encourages us to Flow** with these shifts, holding space for acceptance while remaining grounded and mindful.

This **November**, with **Thanksgiving** on the horizon and a **Season of Reflection** at hand, we're invited to open ourselves to deep insights and **Meaningful Transformations**. Let's embrace the energy of the season with **November's Key Events, Holidays and Celestial Highlights**:

KEY EVENTS & HOLIDAYS

October 31 - November 4 | Diwali

Celebrating the Festival of Lights, symbolizing the victory of light over darkness and knowledge over ignorance.

November 3 | Daylight Savings Time Ends

Remember to set your clocks back one hour! This shift marks the transition into longer nights, inviting us to embrace a period of rest, reflection, and renewal.

November 5 | Election Day

"Exercise your right to vote—'Vote for Pedro!' And, hey, if anyone's caught 'cheating,' in true Texas spirit, there may be talk of a 'divorce'! 😊"

November 11 | Veterans Day

Honoring those in all branches of the military for their dedication and sacrifice, with an extra salute to the brave Marines and Special Ops forces. Thank you to all who serve!

November 23 | Tommy Marth's Birthday

Today, I'm raising a glass (or maybe a saxophone!) for my friend Tommy Marth (1978-2012), who toured with The Killers and was a true Vegas legend. His laughter and spirit were as memorable as his music. 'Jenny Was a Friend of Mine' always strikes a chord—because, well, I'm Jen! Here's to Tommy: his music, his wit, and the memories that keep him close. May he be jamming beyond, with that same brilliant smile.

November 28 | Thanksgiving

Let us take time to reflect on gratitude and honor Native American Heritage Month, remembering the true origins of this day with respect and reverence.

CELESTIAL HIGHLIGHTS

November 1 | New Moon in Scorpio

A fresh beginning and an opportune moment to set intentions for transformation.

November 1-11 | 11/11 Portal

This powerful portal opens a unique energetic gateway, offering profound potential for new beginnings and growth.

November 4-5 | Taurid Meteor Shower

Active throughout November, the Taurid meteor shower peaks around November 4-5. Known for producing bright fireballs, these slower-moving meteors are often more visible. The Taurids can be seen worldwide, with the best visibility in areas with minimal light pollution.

November 15 | Full Beaver Moon

This Full Moon invites us to focus on abundance, security, and preparing for winter—a time for reflection and grounding.

November 17-18 | Leonid Meteor Shower

The Leonids will peak on November 17-18, offering fast and bright meteors, often with lingering trails. At their peak, the Leonids can produce around 15 meteors per hour. They're best viewed in the Northern Hemisphere, especially after midnight, in clear, dark skies.

November 19 | Pluto Re-enters Aquarius

Pluto's return to Aquarius signals a powerful shift, inviting us to release old patterns and embrace new possibilities that support collective growth and harmony.

November 25 - December 15 | Mercury Retrograde

Prepare for potential miscommunications, travel delays, and tech hiccups as Mercury moves Retrograde. This is an ideal time for reflection, double-checking details, and revisiting past projects.

X-Class Solar Flares

Continuing activity may impact our energy fields and technological systems, reminding us of the powerful forces influencing us physically and emotionally.

Schumann Resonance Enhanced Activity

Heightened activity in the Earth's electromagnetic field can also influence our physical and emotional well-being. Stay grounded and aware.
