

About the Chocolate Meltdown

The Chocolate Meltdown is the premier event to support the ALS Hope Foundation and Hope Loves Company. Attendees will enjoy all sorts of decadent chocolate, candy, food and drinks while taking in the beautiful scenery at the Adventure Aquarium's Currents ballroom and Shark Realm. Think of it as Trick-or-Treating for adults. This year's event will take place on Friday, September 23rd.

About ALS Hope Foundation

The ALS Hope Foundation is a regional, independent foundation that has been advocating for people with ALS and their families since 1999. Primarily, we fund clinical research and education at the nationally acclaimed MDA/ALS Center of Hope at Temple University Lewis Katz School of Medicine. This clinic has been providing a multidisciplinary approach to care for people with ALS and their families in the Greater Philadelphia metropolitan area since 1984. The ALS Hope Foundation is working to ensure that this clinic can continue to offer access to clinical trials of promising therapeutics and maintain its work at the forefront of clinical ALS research. The ALS Hope Foundation also maintains an excellent team of scientists focused on ALS, operating out of the Dr. Robert Sinnott Research Laboratory at Temple University Lewis Katz School of Medicine. This laboratory relies on its collaborations with other scientists to attack ALS from new and innovative directions.

Together, we keep Hope on the Horizon!

About Hope Loves Company

Hope Loves Company is the only non-profit in the U.S. with the mission of providing educational and emotional support to the children and young adults who had or have a loved one battling ALS or Lou Gehrig's Disease. They hold 3-7-day camps in six states that not only provide fun activities for the attendees, but it also provides much needed support from the people that run the camp as well as other children attending who are experiencing the same situation. HLC also provides books, seminars, packages, support sessions and anything else that is needed for these families. Of the 30,000 Americans diagnosed with ALS each year, 85% of them have a child or grandchild. Many of these kids become the caregivers of these patients. HLC gives these children a chance to have fun and be themselves along with getting much needed support.
