

# ZERO SECURITY

Security & Surveillance Services | Technical Program Management | Consulting

## Company Overview

Zero Security was built on sensitive activity operations and experiences solving our nation’s most complex situations. Anthony Lewis, founder and CEO, brings capabilities from his time with Special Mission Units and national intelligence agencies to build upon cyber awareness, surveillance and counter-surveillance courses. He has served many roles from director to course writer for organizations such as the Special Forces Surveillance Committee, the FBI, large and small business contractors, high-profile private travelers, and several other federal law enforcement agencies and Special Mission Units over the past two decades.

**Our Ethos:** The best technologies in the world are only as good as the people who use them.

## Core Competencies

### Program Management/Mission Support

- Multi-base, multi-disciplinary technical contracts
- Ability to grow organically
- Maintaining high retention and CPARS

### Security

- Physical and Cyber Security
- Extensive Red Team experience in both realms
- Assessments and remediation services

### Surveillance/Counter-Surveillance

- Physical and Technical Surveillance experience
- Technical Surveillance Builds and Techniques
- Counter-Surveillance for high-profile individuals

## Course and Consultation Offerings

Surveillance Course	Technical Surveillance Build Support	Business Security	Social Media and Internet Safety
Offering physical, technical or mixed classes customized to the focus areas and course duration, giving flexibility to your agency/department needs. (Federal or Local Gov’t Only)	Depending on the situation, laws, and implementation, this can include solutions, bespoke builds, installs, or any combination of these. (Federal or Local Gov’t Only)	Assess and offer fixes for your business’ physical and cyber security. Can also include executive travel safety and general tradecraft knowledge for integrity of your intellectual property.	Courses tailored to the target audience to develop safe “digital hygiene.” Unique courses for schools, (pre)teens, and those over 50. The goal is to develop a better understanding of how a bad actor could take advantage.

**People-Centric | Mission-Oriented**
