

ALABAMA CENTER FOR CHILDHOOD CANCER & BLOOD DISORDERS

The Alabama Center for Childhood Cancer and Blood Disorders is committed to finding a cure for more than

2,000

children each year who come to us for care.

85%

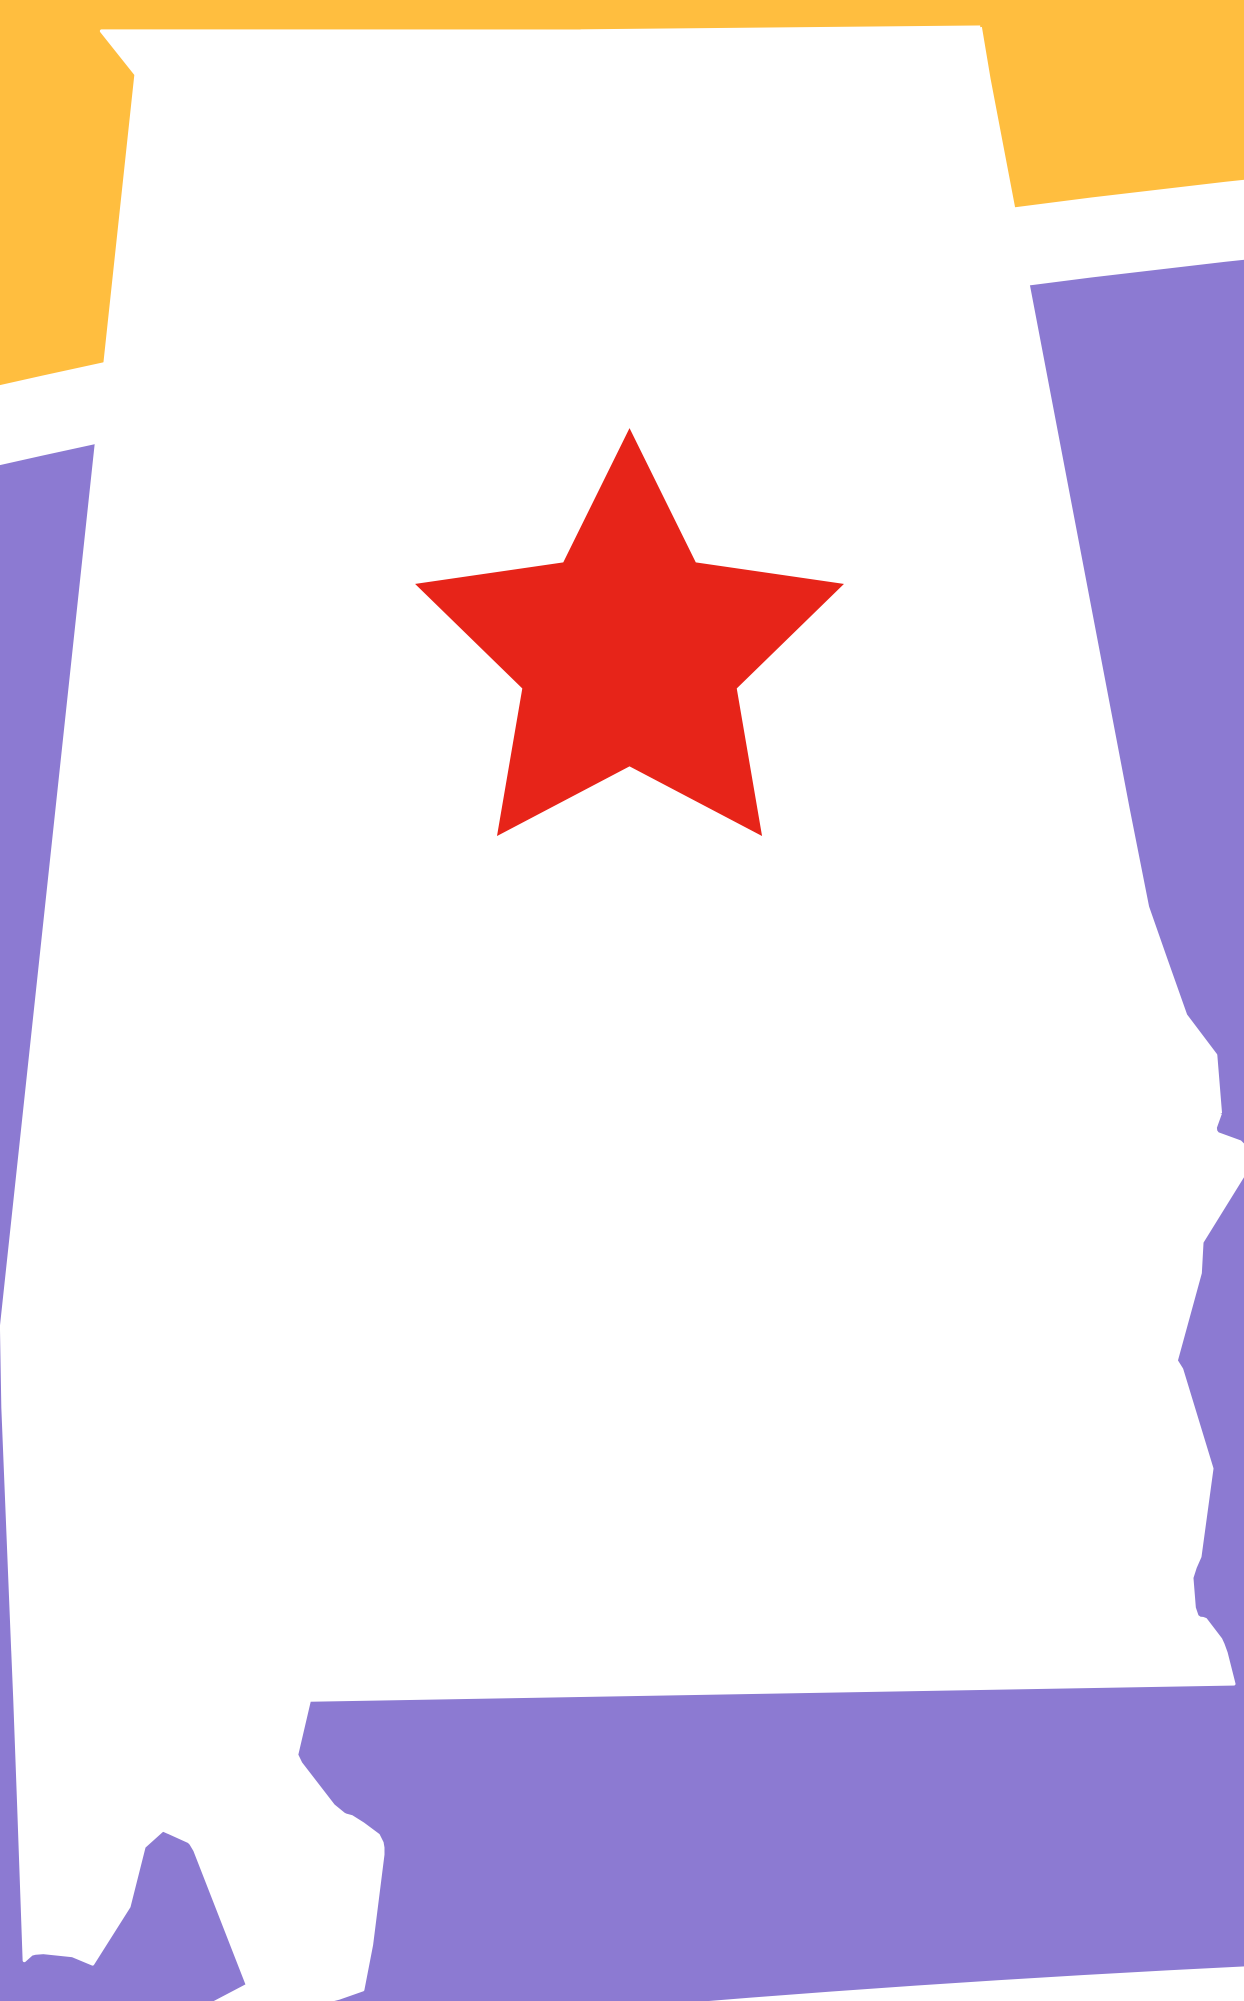

of children diagnosed with cancer will be cured

Sickle Cell Disease Causes

**Blood infections • Pain • Anemia
Respiratory Problems • Stroke**

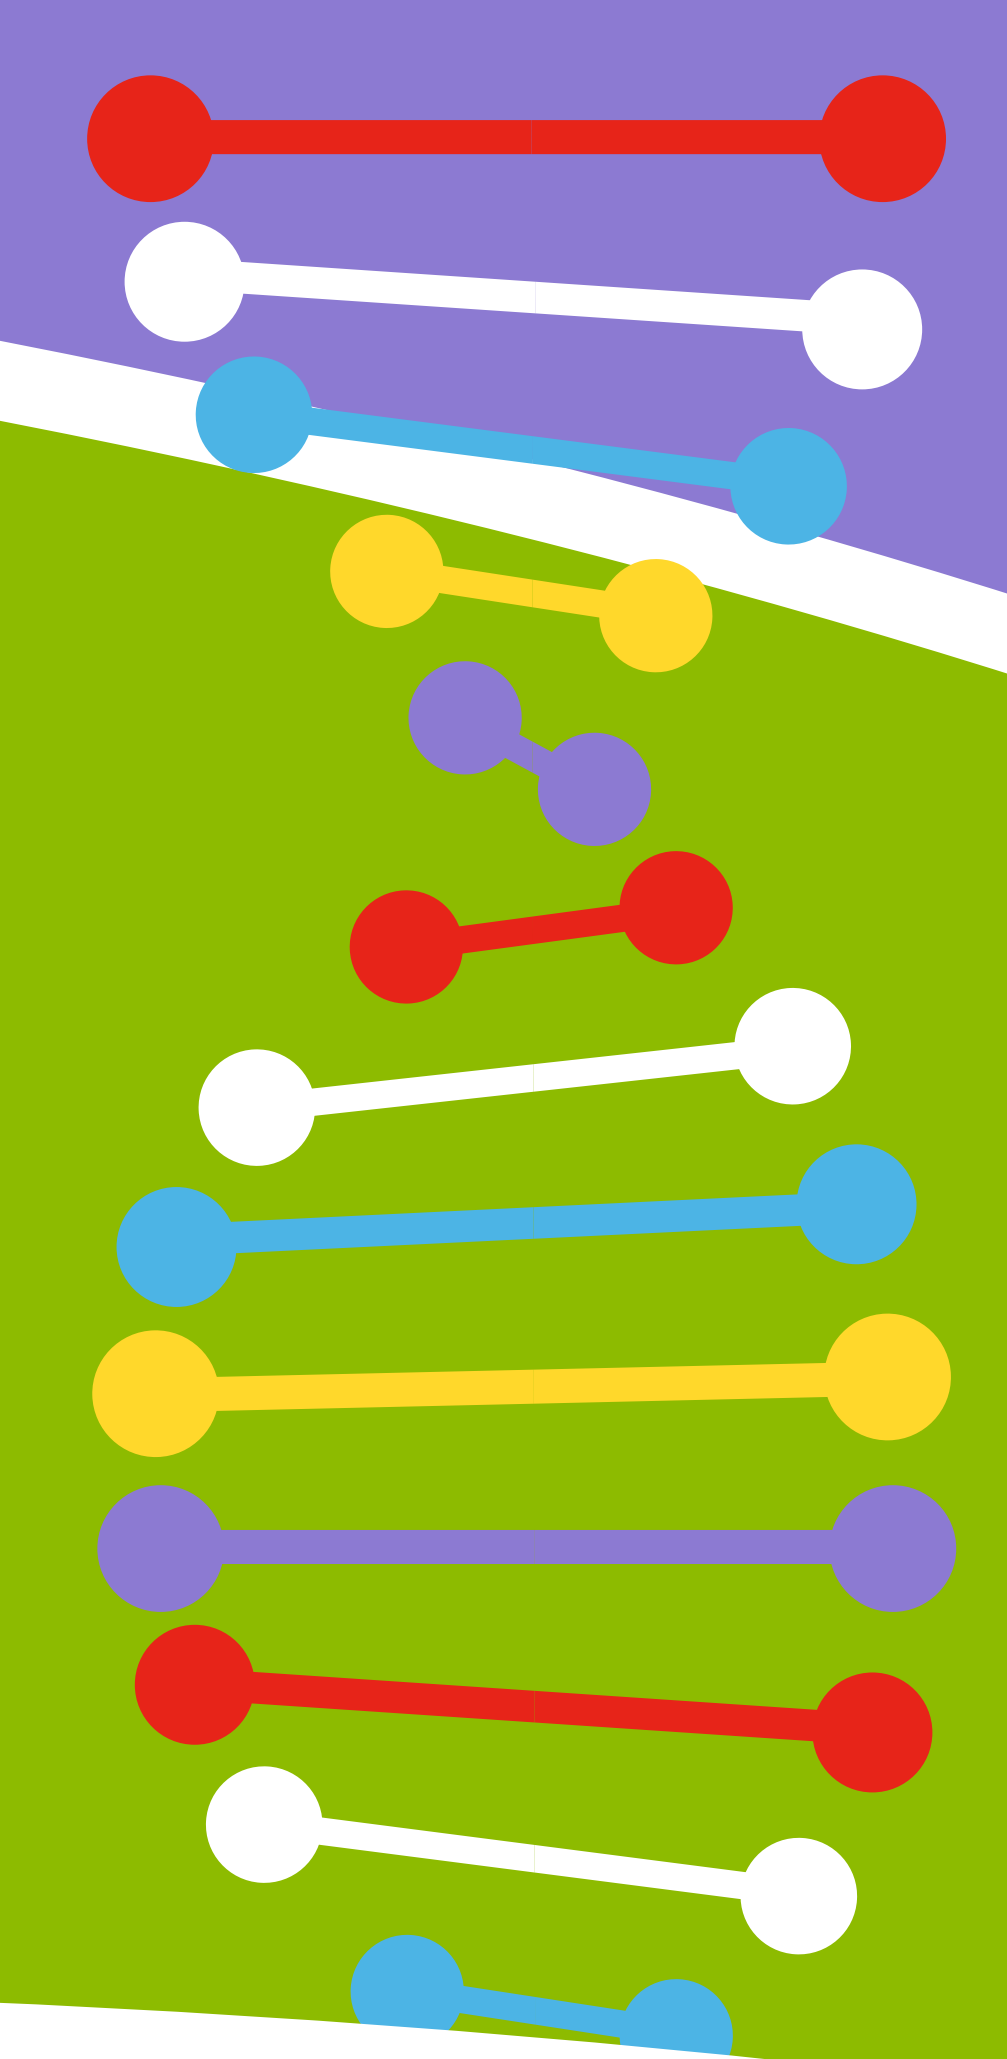

State-of-the-art screenings have reduced the rate of stroke in sickle cell patients by

90%

The Pediatric Blood and Marrow Transplantation Program is the state's **ONLY DEDICATED** pediatric bone marrow transplant facility

Multiple National Consortia which allows our families access to the newest treatments and most promising trials without traveling out of state.

At our Center, more than **300** dedicated pediatric healthcare professionals provide exceptional patient care, education & research.
