

Does this sound familiar?

"I want to be able to be confident in every area of my life as a woman."

Paola, 32, CA

Whether it's a result of age, child birth or simply a cosmetic insecurity, women are regularly asking about treatments to address intimacy concerns.

"Ever since I had my son, my body has never been the same."

Kim, 45, TX

64% of women confessed that their body image has gotten worse since they had a baby.*

noticed the difference and my husband
noticed the difference as well."*

Kim, 45, TX

**Short & Easy
Treatment**

**Non-Surgical
No Downtime**

**Comfort
in Mind**

Who is this procedure right for?

This procedure is a great option for women who desire non-surgical improvement for their intimate wellness concerns.

How many treatments do I need?

Three treatments scheduled once a week are recommended. Usually, internal treatment takes eight minutes and external treatment is based on your specific needs, but generally less than fifteen minutes.**

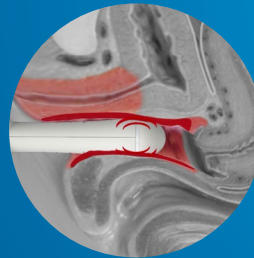

What does the treatment feel like?

You will feel pleasant and comfortable heat. Following the treatment, you may notice mild redness and swelling in the treatment area. This usually disappears within a few hours. You may resume normal activity immediately afterward.

How fast will I notice results?

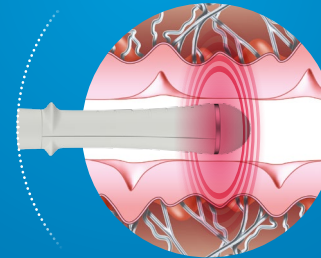

You may observe improvement after a single session. The results will typically continue to improve over the next few weeks.*

How does it work?

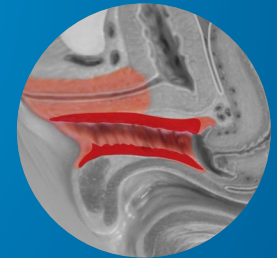

Before

The tip is inserted through the introitus inside the vaginal canal, moving slowly alongside forward and backward.

During

EMFEMME 360 uses unique 360° radiofrequency energy to gently heat the tissue and improve its condition.

After

The heat helps restore women's intimate well-being without discomfort or downtime.
