**Better than Botox™**  
**Hexapeptide 389™**  
NO PHOTOSHOP

or is

**Botox™** vs.

**Hexapeptide 389™**

**Both Botox™ and Hexapeptide 389™ block muscle contraction but in different ways**

Botox® breaks down neurotransmitters sent from the neuron to the muscle.

Hexapeptide 389™ prevents neurotransmitters from being released in the first place.
